ERRATUM

SZE-FOO CHIEN: Heat transfer from a short heated section in annular flow, *Int. J. Heat Mass Transfer* **12**, 31–43 (1969).

Equation on p. 37 should read

$$Nu = \zeta \, Re^{\beta} Pr^{0.30} \left(\frac{\mu}{\mu_w}\right)^{0.14}.$$

Equation on p. 42 should read

$$Nu = \alpha \, Re^{\beta} \left(\frac{D_2}{D_1}\right)^{\gamma} . \, Pr^{0.30} \left(\frac{\mu}{\mu_w}\right)^{0.14} \left(\frac{L}{D_1}\right)^{\varphi}$$

Ordinate of Fig. 8 on p. 38 should read

$$Nu \quad Pr^{-0.30} \left(\frac{\mu}{\mu_w}\right)^{-0.14}$$
