

## FOREWORD

AS THE publisher of the International Journal of Heat and Mass Transfer I should like to pay tribute to Professor A. V. Luikov for the great help he has been right from the beginning in assisting in the formulation of the editorial policies for this journal. This was not only a great help to contributors and readers in the USSR but also to his colleagues throughout the world. My deepest sympathy goes to Mrs. Luikov, his family and all their friends.

ROBERT MAXWELL
