

## ANNOUNCEMENTS

### Second International Symposium on Two-phase Annular and Dispersed Flows

University of Oxford, U.K., 6–8 September 1988

The unifying theme of this symposium will be the understanding of annular and dispersed two-phase flows. Experimental and theoretical papers will be presented. Particular topics covered will be: atomization; particle dispersion; coalescence of drops; wave structure; behaviour of thin liquid films; mass transfer; momentum transfer; heat transfer; and prediction methods.

Approximately 30 papers will be given in six sessions. For further information about the symposium, please contact:

Dr P. B. Whalley  
Department of Engineering Science  
University of Oxford  
Parks Road  
Oxford OX1 3PJ  
U.K.

Abstracts, of maximum length four pages, should be submitted by December 1987. Notification of acceptance will be given at the end of February 1988.

### The First International Symposium on Symbolic Computation in Heat Transfer and Fluid Mechanics

ASME Winter Annual Meeting, Chicago, Illinois, U.S.A., 27 November–2 December 1988

The K-6 and K-8 Committees of the ASME Heat Transfer Division and the Fluid Mechanics Committee of the ASME Applied Mechanics Division are co-sponsoring a symposium on Symbolic Computation in Heat Transfer and Fluid Mechanics. The symposium will consist of both invited and contributed papers. The following are a non-exclusive sample of acceptable topics: exact and approximate (perturbation) solutions; the use of symbolic computation as a preprocessor and postprocessor of numerical codes utilizing spectral, finite-difference or finite-element techniques; expert systems based on symbolic computation; and the use of symbolic computation in instruction.

The papers will be published in conference proceedings. However, the authors are free to submit their papers for subsequent publication in a journal of their choice.

Individuals who are interested in contributing a paper to the session should submit three copies of a 500 word abstract to one of the session organizers:

Haim H. Bau  
Department of Mechanical Engineering and Applied  
Mechanics

111 Towne Bldg., D3  
University of Pennsylvania  
Philadelphia, PA 19104-6315  
U.S.A.  
Phone: (215) 898-8363

Thorward Herbert  
Engineering Science and Mechanics  
Virginia Polytechnic Institute and State University  
Blacksburg, VA 24061, U.S.A.  
Phone: (703) 961-6051

M. Michael Yovanovich  
Department of Mechanical Engineering  
University of Waterloo  
Waterloo, Ontario, Canada  
Phone: (519) 885-1211.

Deadlines are as follows:

Abstract due:	15 February 1988
Authors informed by:	15 March 1988
Complete papers due:	15 April 1988
Final manuscript due:	15 July 1988.
