

Heat and mass transfer bibliography— Soviet works

R. I. SOLOUKHIN and O. G. MARTYENKO
Heat and Mass Transfer Institute, Minsk, U.S.S.R.

(Received 5 April 1986)

BOOKS

- Boiling and Condensation* (Collected Papers). Izd. Rizhsk. Politekhn. Inst., Riga (1985).
- V. R. Borovsky and V. A. Shelimanov, *Heat Transfer of Small-radius Cylindrical Bodies and their Systems*. Izd. Naukova Dumka, Kiev (1985).
- Convective Flows* (Collected Papers). Izd. Perm. Gos. Ped. Inst., Perm (1985).
- Convective Heat Transfer and Hydrodynamics*, Collected Papers of the Inst. of Engineering Thermophysics, Academy of Sciences of the UkrSSR. Izd. Naukova Dumka, Kiev (1985).
- Yu. P. Gupalo, A. D. Polyandin and Yu. S. Ryazantsev, *Mass and Heat Transfer Between Reacting Particles and a Flow*. Izd. Nauka, Moscow (1985).
- Heat-Mass Transfer and Physicochemical Processes in Power Plants* (Collected Papers). Izd. ITMO AN BSSR, Minsk (1985).
- I. N. Iljin (Editor), *Thermophysics and Hydrogasdynamics of Boiling and Condensation Processes. Proceedings of the All-Union Conference, September 1982, Riga, pt. 1. Bubble Boiling*. Izd. Rizhsk. Politekhn. Inst., Riga (1985).
- Yu. A. Mikhailov and Yu. T. Glazunov, *Variational Methods in the Nonlinear Heat- and Mass-transfer Theory*. Izd. Zinatne, Riga (1985).
- V. E. Nakoryakov, B. G. Pokusayev and I. R. Shreiber, *Propagation of Waves in Gaseous and Vapour-Liquid Media*. Izd. Novosib. Teplofiz. Inst., Novosibirsk (1985).
- Problems of Heat and Mass Transfer: the Modern State and Prospects* (Collected Papers). Izd. ITMO AN BSSR, Minsk (1985).
- Processes of Heat and Substance Transfer*. Collected Papers of the Inst. of Engineering Thermophysics, Academy of Sciences of the UkrSSR. Izd. Naukova Dumka, Kiev (1985).
- Processes of Turbulent Transfer in Reacting Systems, Proceedings of the Int. School-Seminar, 20–25 May 1985, Minsk* (1985).
- G. A. Sharovarov, *The Physics of Unsteady-state Processes of Atomic Power Stations*. Izd. Nauka i Tekhnika, Minsk (1985).
- Simulation and Optimization of Heat Transfer Processes in Thermal Power Engineering* (Collected Papers). Izd. Kuibyshevsk. Politekhn. Inst., Kuibyshev (1985).
- A. Zhukauskas, R. Ulinskas and V. Katinas, *Hydrodynamics and Vibration of Tube Bundles in a Flow*, Izd. Mokslos, Vilnius (1984).

PAPERS—GENERAL

- A. V. Borzenkov, A method for solving a problem of the optimization of systems with distributed parameters, *Dokl. Akad. Nauk BSSR* 30(1), 21–25 (1986).
- E. S. Brodt and V. S. Vikhrenko, The successive approximations in the method of kinetic conditional distribution functions, *Dokl. Akad. Nauk BSSR* 30(2), 139–143 (1986).

- R. V. Chernov, B. V. Yakovlev and Yu. K. Delimarsky, Study of the viscosity of rubium and cesium chlorides melts, *Zh. fiz. Khim.* 60(1), 21–25 (1986).
- A. L. Danilyuk, Inflection of zones on the surface of the n-type semiconductor interacting with a stationary gas-discharge plasma, *Dokl. Akad. Nauk BSSR* 30(1), 45–48 (1986).
- G. N. Dulnev and A. O. Sergeev, The choice of the optimal distribution of heat-transfer agent flows in a ventilated cassette radioelectronic apparatus, *Inzh.-fiz. Zh.* 50(2), 249–255 (1986).
- A. M. Goncharenko, V. A. Karpenko and V. N. Mogilevich, Toward the theory of weakly nonhomogeneous optical waveguides with arbitrary uniaxial anisotropy, *Dokl. Akad. Nauk BSSR* 30(3), 220–223 (1986).
- V. L. Kolpashchikov and A. A. Suzko, Spectral inverse problems employed for the synthesis of diffusive lightguides, *Inzh.-fiz. Zh.* 50(2), 316–324 (1986).
- V. V. Kudryashov, The phase space eigenfunctions for a particle in a uniform field, *Dokl. Akad. Nauk BSSR* 30(1), 38–41 (1986).
- V. B. Nemtsov, The correlation functions of the order parameters for oriented nematic liquid crystals, *Dokl. Akad. Nauk BSSR* 30(2), 135–139 (1986).
- E. V. Semyonov and V. I. Polyakov, Study of the centrifugal filtration of a compressible porous medium, *Zh. Prikl. Khim.* 59(2), 319–325 (1986).
- V. I. Zabolotsky, N. P. Gnusin, L. F. Elnikova and V. M. Blednykh, Study of the deep cleaning of amino acids of mineral impurities by electro-dialysis with ion-exchange membranes, *Zh. Prikl. Khim.* 59(1), 140–145 (1986).
- P. P. Zolotaryov and M. A. Maksimycheva, The theory of the chromatographic process in a capillary column formed by two coaxial cylinders, *Zh. fiz. Khim.* 60(2), 381–386 (1986).

HEAT CONDUCTION

- M. I. Akopova, Yu. I. Danilov and T. V. Mikhailova, Towards the determination of the temperature state of a blade-disc system with regard for the contact thermal resistance. In *Heat Transfer in Structural Elements of Aircraft Engine Plants*, pp. 47–50. Moscow (1985).
