

ANNOUNCEMENTS

International Conference on Energy Sources Management and Energy Saving Technology

Beijing, People's Republic of China, 20-23 September 1988

OBJECTIVES

To provide opportunities for the exchange of information and technologies involved with energy sources management and energy conservation among the international participants. To allow participants to acquire an understanding of China's current and projected energy development needs and to identify potential areas for ongoing cooperation in and related to this field.

SUGGESTED TOPICS

The conference is open to all papers dealing with energy conservation, particularly as they relate to heavy and light industry and power plant technology; energy conservation in the building and structural sectors involving air conditioning and refrigeration; and training and education in energy management.

SUBMISSION OF PAPERS AND REGISTRATION

Prospective contributors are invited to submit two copies of their camera-ready paper in English no later than 15 June 1988. Authors from Europe, America and Australia, should submit their abstracts to the individuals listed below. Those

interested in registering for the conference also should write or call Prof. Hartnett or Dr Sathaye:

Prof. J. P. Hartnett, Director
Energy Resources Center
University of Illinois at Chicago
P.O. Box 4348
Chicago, IL 60680, U.S.A.
Tel.: (312) 996-4490
Telex: 4933302 ERCUI.

Dr Jayant A. Sathaye
Bldg 90, Room 3120
Lawrence Berkeley Laboratory
University of California
Berkeley, CA 94720, U.S.A.
Tel.: (415) 486-6294
Telex: 910-366-2037 LBL BERK.

Contributions from Asia, China and the other parts of the world should be sent to:

Prof. Zhu Ya Jie
President of China Energy Research Society
P.O. Box 902, Beijing
People's Republic of China
Tel.: 2017869 Beijing
Telex: 22349 SSTCC CN.

1988 International Conference on Heat Transfer in Energy Conservation

Shenyang, People's Republic of China, 6-9 October 1988

PURPOSE

The conference encourages scientific and technical information exchange among basic research scientists, developmental engineers, and manufacturers interested in industrial energy conservation. The conference will focus on industrial processes such as heating, cooling, evaporation, condensation, chemical reactions, thermodynamic flows, etc. as they relate to industrial plants, boilers, furnaces, and reactors. Environmental control facilities will also be reviewed. The conference sponsors include: Northeast University of Technology, China; Shenyang Society of Energy Resources; Shenyang International Conference Center for Science and Technology, China; Japan Association for Heat Pipes, and the Energy Resources Center, University of Illinois at Chicago, U.S.A.

SUGGESTED PAPER TOPICS

This conference is open to all papers dealing with heat transfer and energy conservation, particularly as they relate to the industrial process described above. Other significant areas include: fundamental theory, heat pipe and exchanger

technologies and applications, and computer design applications of exchangers.

SUBMISSION AND REGISTRATION

For registration information and a copy of the program please contact:

Prof. J. P. Hartnett
Energy Resources Center
University of Illinois at Chicago
P.O. Box 4348
Chicago, IL 60680, U.S.A.
Tel.: (312) 996-4490.

Authors submitting papers should forward a complete paper (in English) to:

Mr Zhao Hong-wen
Shenyang International Conference Center
for Science and Technology
No. 3, Li3, Section 4, Minzu Street
Shenyang, People's Republic of China.
