

Heat and mass transfer bibliography— CIS works

O. G. MARTYNENKO

Heat and Mass Transfer Institute, Minsk, 220072, Belarus

(Received 5 January 1992)

BOOKS

- Drying Processes of Capillary-porous Materials*. Sborn. Nauch. Trudov ITMO AN BSSR, Minsk (1990).
- G. B. Froysheter, S. Yu. Danilevich and N. V. Radionova, *Flow and Heat Transfer of Non-Newtonian Fluids in Tubes*. Izd. Naukova Dumka, Kiev (1990).
- A. S. Galitsyn (Editor), *Special Boundary-value Problems of the Heat Transfer Theory (Collected Papers)*. Izd. Inst. Matem. AN Ukr. SSR, Kiev (1990).
- V. L. Ganzha, G. I. Zhuravskiy and E. M. Simkin, *Heat and Mass Transfer in Multiphase Systems*. Izd. Navuka i Tekhnika, Minsk (1990).
- Heat and Mass Transfer in Engines of Flying Vehicles*. Sborn. Nauch. Trudov. Mosk. Aviats. Inst., Moscow (1991).
- A. D. Klyuchnikov, V. N. Kuzmin and S. K. Popov, *Heat Transfer and Thermal Regimes in Commercial Furnaces*. Energoizdat, Kiev-Moscow (1990).
- V. A. Kravchenko and D. M. Kostanchuk, *Heat Transfer with Mixture Boiling*. Izd. Naukova Dumka, Kiev (1990).
- Low-temperature Processes of Heat and Mass Transfer in Energy Saving Technologies*. Sborn. Nauch. Trudov ITMO AN BSSR, Minsk (1990).
- Yu. M. Matsevityi and S. F. Lushpenko, *Identification of Thermophysical Properties of Solids*. Izd. Naukova Dumka, Kiev (1990).
- B. M. Pankratov (Editor), *Thermal Design of Systems (Collected Papers)*. Izd. MAI, Moscow (1990).
- A. Ye. Stepanov (Editor), *Heat and Energy Saving, Thermometry (Collected Papers)*. Izd. Inst. Problem Energoobezheniya AN Ukr. SSR, Kiev (1990).
- Thermal Physics of Condensed Media: Structure and Properties*. Sborn. Nauch. Trudov ITMO AN BSSR, Minsk (1990).

PAPERS—GENERAL

- G. A. Glebov, A. M. Molchanov and A. P. Trunov, The effective numerical method for calculation of heat and mass transfer problems, In *Thermal Design of Systems*, pp. 169–184, Moscow (1990).
- V. A. Grigoriev, Physico-technical problems of studying monodisperse systems, *J. Engng Physics* **60**, 533–534 (1991).
- Ye. K. Ishmukov, Concerning the application of the multi-component mixture theory to describing heat and mass transfer processes in polymeric composites under pulse heating, *Trudy MGTU* No. 542, 81–92 (1990).
- Ye. V. Ivakin, A. I. Kitsak and A. Ye. Korenchenko, A diffraction-phase method for measuring thermal diffusivity of liquids, Prepr. No. 623 of the Institute of Physics of the BSSR Academy of Sciences, Minsk (1991).
- N. U. Rizayev, Kinetic and hydrodynamic fundamentals of intensification of mass transfer processes in porous bodies, *Uzb. Khim. Zh.* No. 6, 15–22 (1990).
- A. N. Sherstyuk, The law of energy conservation under the conditions of mass transfer, *Teploenergetika* No. 3, 60–61 (1991).
- P. V. Tsoy, On the theory of developments of hybrid analytical-numerical methods for predicting heat and mass transfer processes, *J. Engng Physics* **59**, 395–403 (1990).

HEAT CONDUCTION

- V. V. Akimov, A method for solving a non-stationary heat conduction problem under non-linear boundary conditions, In *Numerical Analysis and Mathematical Simulation*, pp. 25–34. Izd. Otd. Vychisl. Mat. AN SSSR, Moscow (1990).
- V. A. Aleksandrov, A. N. Zhukovskiy and V. A. Mechnik, Solution to a heat conduction problem for a three-layered diamond cutting disk under discontinuity boundary conditions, In *Special Boundary-value Problems of the Heat Transfer Theory*, pp. 10–26. Izd. Inst. Mat. AN Ukr. SSR, Kiev (1990).
- B. M. Anisyutin, Energy estimates of solution to a heat conduction problem with time derivative under the boundary condition, *Dinamika Splosh. Sredy* No. 95, 24–39 (1990).
- Ye. A. Artyukhin and A. V. Nenarokomov, The CHAMAT complex of the programs for numerical solving inverse heat conduction problems, In *Thermal Design of Systems*, pp. 235–247, Moscow (1990).
