

ANNOUNCEMENT

WORKSHOP ON TWO-PHASE FLOW FUNDAMENTALS FOR INDUSTRIAL APPLICATIONS

Santa Barbara, Calif., U.S.A.

17–21 August 1987

This University of California extension workshop features a coordinated, comprehensive series of lectures by experts in the field with problem-oriented discussion sessions. The workshop is of interest to practicing engineers and to researchers in the aerospace, nuclear, chemical, petroleum, cryogenics, power and other industries.

Registration fee = US\$1000, which includes a complete set of lecture notes. Five-day accommodation and meals at a university residence: \$385 for single rooms; \$250 for double rooms; and \$225 for triple rooms. For details, contact:

Professor S. Banerjee, Chairman
Department of Chemical and Nuclear Engineering
