

ANNOUNCEMENT

First Announcement

COMBINED ENERGY AND WATER MANAGEMENT IN INDUSTRY EUROTHERM SEMINAR No. 40

Thessaloniki, Greece
24-25 October 1994

With the collaboration of the

COMMISSION OF THE EUROPEAN COMMUNITIES - JOULE PROGRAMME -

About EUROTHERM

The EUROTHERM Committee was created in 1986 from member countries of the European Community.

It has the purpose of organizing and coordinating scientific events such as seminars and conferences in the thermal sciences.

The series of EUROTHERM Seminars established by the Committee has become a popular forum for high-level scientific and technical interchange of ideas in a wide range of specialist topics. While the presentation and publication of papers at the Seminars are encouraged, the primary aim is to stimulate discussion and liaison between specialist groups.

The present Chairman of EUROTHERM is Professor K. Stephan, Stuttgart University, Germany (*Fax*: 49-711-6856140). Information on future Seminars is available from the Secretary, Professor D. Gorenflo, Universitat (GH) Paderbom (*Fax*: 1-603419).

Scope of the Seminar

Energy and clean water resources are becoming scarce, at an alarming rate, in many parts of the world. Yet these resources - often closely interrelated in their usage - are essential to industry. Efficient management and conservation of both energy and water is a topic of utmost concern to scientists, to industrial managers, national administrators and international organizations. The aim of this Seminar is to create a forum where those working in various specialist areas can present their recent work, discuss novel technical approaches and outline directions for future R & D.

Topics

Emphasis in this Seminar will be given to the following topics:

- Systems modelling and design for optimizing energy and water usage
- Energy efficient desalination
- Energy efficient waste water purification
- Water utilization in energy production
- Fouling problems in thermal processes
- Energy and water auditing
- Processes with reduced use of water

Scientific Committee

Professor A. J. Karabelas (Chairman)

Aristotle University of Thessaloniki, Greece

Dr P. A. Pilavachi (Co-Chairman)

CEC, DG XII, Brussels

Dr E. Carabateas

General Secretariat for Research & Technology, Greece

Professor D. Hasson

Technion, Israel Institute of Technology, Israel

Professor P. Hutchinson

Cranfield Institute of Technology, United Kingdom

Professor P. Le Goff

University of Nancy, France

Professor D. W. T. Rippin

ETH, Zurich, Switzerland

Registration fees

Registration fees covering participation in the Seminar, volume of abstracts, Proceedings (available six months later), lunches and beverages will be 160 ECU (or 45.000 Drachmas).
