

Announcements

4th Pharmaceutical Technology Conference

This conference will be held at the *University of Edinburgh, Edinburgh, Scotland* on *April 10th to 12th, 1984*.

Topics include: sustained release preparations, rectal dosage forms, solid dispersion technology and novel granulation methods. This event will be an international forum for the open and informal discussion of recent developments in pharmaceutical technology and is aimed at industrial and academic scientists who are concerned with the research, development, manufacture and quality assurance of medicinal products.

Full details can be obtained from:
