

INTERNATIONAL JOURNAL OF PHARMACEUTICS

AIMS AND SCOPE

The INTERNATIONAL JOURNAL OF PHARMACEUTICS provides a medium for the publication of research results dealing with all aspects of Pharmaceutics including physical, chemical, analytical, biological and engineering studies related to drug delivery in its broadest sense. Such areas include:

1. Drug delivery systems
2. Physical pharmacy
3. Biopharmaceutics
4. Pharmacodynamics and pharmacokinetics
5. Membrane function and transport
6. Biotechnology
7. Drug and prodrug design
8. Radiopharmaceuticals
9. Sterility and sterilization
10. Quality control of pharmaceuticals
11. Pharmaceutical analysis
12. Drug stability
13. Pharmaceutical technology
14. Descriptions / reviews of computer programs relating to the above areas
15. Application of cell and molecular biology in drug delivery

EDITORIAL POLICY

The over-riding criteria for publication are originality, high scientific quality and interest to a multidisciplinary audience. Papers not sufficiently substantiated by experimental detail will not be published. Any technical queries will be referred back to the author, although the Editors reserve the right to make alterations in the text without altering the technical content.

Manuscripts submitted under multiple authorship are reviewed on the assumption that all listed authors concur with the submission and that a copy of the final manuscript has been approved by all authors and tacitly or explicitly by the responsible authorities in the laboratories where the work was carried out. If accepted, the manuscript shall not be published elsewhere in the same form, in either the same or another language, without the consent of the Editors and Publisher.

EDITORS IN CHIEF

*For: Europe, Africa,
Near East*

P.F. D'ARCY
Department of Pharmacy,
Medical Biology Centre,
The Queen's University
of Belfast,
97 Lisburn Road,
Belfast BT9 7BL,
U.K.

For: The Americas and Australia

W.I. HIGUCHI
Department of
Pharmaceutics,
College of Pharmacy
University of Utah,
Salt Lake City,
UT 84112,
U.S.A.

J.H. RYTTING
(Associate Editor)
Pharmaceutical
Chemistry Dept.,
School of Pharmacy,
University of Kansas,
Lawrence, KS 66045,
U.S.A.

For: Japan

T. NAGAI
Department of
Pharmaceutics, Faculty of
Pharmaceutical Sciences,
Hoshi University,
Ebara 2-4-41,
Shinagawa-ku,
Tokyo 142, Japan.

INSTRUCTIONS TO AUTHORS

The preferred medium of submission is on disk with accompanying manuscript (see **Electronic manuscripts** below).

Submission of a paper to the International Journal of Pharmaceutics implies: (1) that it is not being submitted for publication elsewhere; (2) the transfer of the Copyright from the Author to the Publisher. Manuscripts submitted under multiple authorship are reviewed on the assumption that all listed authors concur with the submission and that a copy of the final manuscript has been approved by all authors and tacitly or explicitly by the responsible authorities in the laboratories where the work was carried out. If accepted, the manuscript shall not be published elsewhere in the same form, in either the same or another language, without the consent of the Editors and Publisher.

Electronic manuscripts

Electronic manuscripts have the advantage that there is no need for the rekeying of text, thereby avoiding the possibility of introducing errors and resulting in reliable and fast delivery of proofs.

The preferred storage medium is a 5.25 or 3.5 inch disk in MS-DOS format, although other systems are welcome, e.g., Macintosh (in this case, save your file in the usual manner, do not use the option 'save in MS-DOS format'). Your disk and (**exactly matching**) printed version (printout, hardcopy) should be submitted together to the accepting editor. In case of revision, the same procedure should be followed such that, on acceptance of the article, **the file on disk and the printout are identical**. Please specify the type of computer and word-processing package used (do **not** convert your textfile to plain ASCII). Ensure that the letter 'l' and digit '1' (also letter 'O' and digit '0') have been used properly, and format your article (tabs, indents, etc.) consistently. Characters not available on your word processor (Greek letters, mathematical symbols, etc.) should not be left open but indicated by a unique code (e.g., α , β , γ , etc., for the Greek letter α). Such codes should be used consistently throughout the entire text. Please make a list of such codes and provide a key. Do not allow your word processor to introduce word splits and do not use a 'justified' layout. Please adhere strictly to the general instructions on style / arrangement and, in particular, the reference style of the journal. Further information may be obtained from the Publisher.

Papers and original figures should be submitted plus **three copies** and accompanied by a letter of transmittal to one of the Editors in Chief. When the paper is to be published as a Rapid Communication, this should be clearly indicated to the Editor in Chief.

TYPES OF PAPERS

- (1) Full length papers.
- (2) Rapid communications not exceeding 1500 words or equivalent space.
- (3) Notes (formerly Short Communications) limited to 1500 words or equivalent, including figures / tables.
- (4) Descriptions / reviews of computer programs useful to pharmaceutical scientists.
- (5) Suggestions for Review Articles will be considered by the Editors-in-Chief.
