

INTERNATIONAL JOURNAL OF PHARMACEUTICS

AIMS AND SCOPE

The INTERNATIONAL JOURNAL OF PHARMACEUTICS provides a medium for the publication of research results dealing with all aspects of Pharmaceutics including physical, chemical, analytical, biological and engineering studies related to drug delivery in its broadest sense. Such areas include:

1. Drug delivery systems
2. Physical pharmacy
3. Biopharmaceutics
4. Pharmacodynamics and pharmacokinetics
5. Membrane function and transport
6. Biotechnology
7. Drug and prodrug design
8. Radiopharmaceutics
9. Sterility and sterilization
10. Quality control of pharmaceuticals
11. Pharmaceutical analysis
12. Drug stability
13. Pharmaceutical technology
14. Descriptions / reviews of computer programs relating to the above areas
15. Application of cell and molecular biology in drug delivery

EDITORIAL POLICY

The over-riding criteria for publication are originality, high scientific quality and interest to a multidisciplinary audience. Papers not sufficiently substantiated by experimental detail will not be published. Any technical queries will be referred back to the author, although the Editors reserve the right to make alterations in the text without altering the technical content.

Manuscripts submitted under multiple authorship are reviewed on the assumption that all listed authors concur with the submission and that a copy of the final manuscript has been approved by all authors and tacitly or explicitly by the responsible authorities in the laboratories where the work was carried out. If accepted, the manuscript shall not be published elsewhere in the same form, in either the same or another language, without the consent of the Editors and Publisher.

EDITORS IN CHIEF

*For: Europe (except
Scandinavia
and Finland),
Africa, Near East*

P.F. D'ARCY
School of Pharmacy,
Medical Biology Centre,
The Queen's University
of Belfast,
97 Lisburn Road,
Belfast BT9 7BL,
U.K.

*For: Scandinavia
and Finland*

J.M. NEWTON
Department of Pharmaceutics,
The School of Pharmacy,
University of London,
29-39 Brunswick Square,
London WC1N 1AX,
U.K.

*For: The Americas
and Australia*

J.H. RYTTING
Pharmaceutical
Chemistry Dept.,
School of Pharmacy,
University of Kansas
Lawrence, KS 66045
U.S.A.

For: Japan

T. NAGAI
Department of
Pharmaceutics, Faculty of
Pharmaceutical Sciences,
Hoshi University,
Ebara 2-4-41,
Shinagawa-ku,
Tokyo 142, Japan.

EDITORIAL BOARD

J.L. Vila Jato (Santiago de Compostela)
G. Zografi (Madison, WI)

INSTRUCTIONS TO AUTHORS

The preferred medium of submission is on disk with accompanying manuscript (see **Electronic manuscripts** below).

Submission of a paper to the International Journal of Pharmaceutics implies: (1) that it is not being submitted for publication elsewhere; (2) the transfer of the Copyright from the Author to the Publisher. Manuscripts submitted under multiple authorship are reviewed on the assumption that all listed authors concur with the submission and that a copy of the final manuscript has been approved by all authors and tacitly or explicitly by the responsible authorities in the laboratories where the work was carried out. If accepted, the manuscript shall not be published elsewhere in the same form, in either the same or another language, without the consent of the Editors and Publisher.

Electronic manuscripts

Electronic manuscripts have the advantage that there is no need for the rekeying of text, thereby avoiding the possibility of introducing errors and resulting in reliable and fast delivery of proofs.

The preferred storage medium is a 5 $\frac{1}{2}$ or 3 $\frac{1}{2}$ inch disk in MS-DOS format, although other systems are welcome, e.g., NEC and Macintosh (in this case, save your file in the usual manner, do not use the option 'save in MS-DOS format'). Please do not split the article into separate files (title page as one file, text as another, etc.). Ensure that the letter 'l' and digit '1' (also letter 'O' and digit '0') have been used properly, and structure your article (tabs, indents, etc.) consistently. Characters not available on your wordprocessor (Greek letters, mathematical symbols, etc.) should not be left open but indicated by a unique code (e.g., α , β , γ , etc., for the Greek letter α). Such codes should be used consistently throughout the entire text. Please make a list of such codes and provide a key. Do not allow your wordprocessor to introduce word splits and do not use a 'justified' layout. Please adhere strictly to the general instructions on style / arrangement and, in particular, the reference style of the journal. It is very important that you save your file in the wordprocessor format. If your wordprocessor features the option to save files 'in flat ASCII', please do not use it. Format your disk correctly and ensure that only the relevant file (one complete article only) is on the disk. Also, specify the type of computer and wordprocessing package used and label the disk with your name and the name of the file on the disk. After final acceptance, your disk plus one, final, printed and exactly matching version (as a printout) should be submitted together to the accepting editor. **It is important that the file on disk and the printout are identical.** Both will then be forwarded by the editor to Elsevier. Further information may be obtained from the Publisher.

Papers and original figures should be submitted plus **three copies** and accompanied by a letter of transmittal to one of the Editors in Chief. When the paper is to be published as a Rapid Communication, this should be clearly indicated to the Editor in Chief.

TYPES OF PAPERS

- (1) Full length papers.
- (2) Rapid communications not exceeding 1500 words or equivalent space.
- (3) Notes (formerly Short Communications) limited to 1500 words or equivalent, including figures / tables.
- (4) Descriptions / reviews of computer programs useful to pharmaceutical scientists.
- (5) Suggestions for Review Articles will be considered by the Editors-in-Chief.
