

PRELIMINARY ANNOUNCEMENT
NINTH U.S. NATIONAL CONGRESS OF
APPLIED MECHANICS

Cornell University, Ithaca, New York

21-25 June 1982

The Congress is organized by the U.S. National Committee on Theoretical and Applied Mechanics of the National Academy of Sciences, representing 10 Institutes and Societies:

**American Physical Society
American Society of Civil Engineers
American Institute of Aeronautics and Astronautics
American Institute of Chemical Engineers
American Mathematical Society
American Society for Testing and Materials
American Society of Mechanical Engineers
Society of Rheology
Society of Experimental Stress Analysis
Society for Industrial and Applied Mathematics.**

Sessions for general lectures, symposia on special topics and contributed papers are being planned. Research workers in the field of Theoretical and Applied Mechanics will be invited to submit papers to the Congress. Further announcements concerning the symposia and submission of contributed papers will be made later.

The members of the organizing committee at Cornell University are:

**Richard H. Lance, Local Arrangements
James T. Jenkins, Treasurer
Wolfgang H. Sachse, Secretary
Yih-Hsing Pao, General Chairman**

Inquiries regarding the Congress should be addressed to:

**Prof. Y. H. Pao,
Department of Theoretical and Applied Mechanics,
Thurston Hall, Cornell University,
Ithaca, New York, NY 14853,
U.S.A.**
