E. H. Lee and R. M. McMeeking, Concerning elastic and plastic components of deformation. *Int. J. Solids Structures* 16(8), 715-721 (1980).

Line following eqn (3.4) on page 717 should read

where $\dot{\mathbf{F}} = \partial \mathbf{F} / \partial t | \mathbf{X}$. In terms of the elastic and plastic local deformation gradients \mathbf{F}^e and \mathbf{F}^p ...
