EUROMECH MEETINGS 1991

The European Mechanics Council has overall responsibility for Euromech Colloquia and Euromech Conferences. The latter comprise the European Solid Mechanics Conference, the European Fluid Mechanics Conference and the European Turbulence Conference. Euromech Conferences

These are broad in scientific scope. They are open to all those interested and are expected to have between 150 and 600 participants. The general purpose is to provide opportunities

for scientists and engineers from all parts of Europe to meet and discuss current research. The responsibility for each series of conferences is delegated to a Standing Committee. The detailed organizational work is carried out by Local Organizing Committees (LOC). Those who are interested in taking part in one of the conferences should write to the Chairman of the appropriate LOC. The Title, Chairman of the LOC, Dates and Location for the Euromech Conferences in 1991 are given below.

1st European Solid Mechanics Conference

Prof. F. Pfeiffer
Lehrstuhl B für Mechanik, Technical University of Munich,
