

A LIST OF PUBLICATIONS BY GEORGE HERRMANN

- Kollbrunner, C. F. und Herrmann, G. (1947). Stabilität der Platten im plastischen Bereich (Stability of Plates in the Plastic Range). Theorie von A. Iljushin mit Vergleichswerten von durchgeführten Versuchen. Zweiter Bericht der T.K.V.S.B. über Plattenausbeulung. Nr 20 der Mitteilungen aus dem Institut für Baustatik an der Eidgenössischen Technischen Hochschule, in Zürich, herausgegeben von Prof. Dr. F. Stüssi und Prof. Dr. P. Lardy. Verlag A. G. Gebr. Leemann & Co., Zürich.
- Kollbrunner, C. F. und Herrmann, G. (1948). Theoretische Beuluntersuchungen der T.K.V.S.B. im Jahre 1947 (Theoretical stability investigations of the T.K.V.S.B. during 1947). *Schweizerische Bauzeitung* 66(11).
- Kollbrunner, C. F. und Herrmann, G. (1949). Elastische Beulung von auf einseitigen, ungleichmässig Druck beanspruchten Platten (Elastic buckling of plates under non-uniform compression). Vierter Bericht der T.K.V.S.B. über Plattenausbeulung. Nr. 1 der Mitteilungen der T.K.V.S.B., Verlag A. G. Gebr. Leemann & Co.
- Kollbrunner, C. F. und Herrmann, G. (1949). Reine Biegungsbeulung rechteckiger Platten im elastischen Bereich (Pure bending stability of rectangular plates in the elastic range). Fünfter Bericht der T.K.V.S.B. über Plattenausbeulung, Nr. 2 der Mitteilungen der T.K.V.S.B., Verlag Leemann, Zürich.
- Kollbrunner, C. F. und Herrmann, G. (1949). Stabilität rechteckiger, durch linear verteilte Randräfte beanspruchter Platten im elastischen Bereich (Stability of rectangular plates under linear distributed loads in the elastic range). *Schweizerische Bauzeitung* 67(22).
- Herrmann, G. et Kollbrunner, C. F. (1949). Surface des plaques rectangulaires, flechies et comprimées dans le domaine elastique (Surface of rectangular plates, bent and compressed in the elastic range). *La Technique Moderne Construction* 4(12), 375.
- Herrmann, G. (1950). *Experimentelle Untersuchung über den Spannungsverlauf in Platten von Streifenfundamenten* (Experimental investigation of stress distribution in foundation plates). Verlag Leemann, Zürich.
- Herrmann, G. (1950). Theoretische Untersuchung über die Durchbiegung schiefer Platten unter zentrischer Einzellast (Theoretical investigation of the deflection of skew plates under concentrated, central force). Doctor's theses. Publication No. 4 of the Laboratory of Piezoelectricity of the Swiss Federal Institute of Technology in Zürich. Verlag Leemann, Zürich.
- Mindlin, R. D. und Herrmann, G. (1951). A one-dimensional theory of compressional waves in an elastic rod. *Proc. First U.S. National Congr. Appl. Mech.*, Chicago, 1951. Also Office of Naval Research Project Nr-064-388, Technical Report No. 1, September 1951.
- Kollbrunner, C. F. und Herrmann, G. (1951). *Der Einfluss der Poissonschen Zahl auf die Stabilität rechteckiger Platten* (Influence of Poisson's ratio on the stability of rectangular plates). Siebenter Bericht der T.K.V.S.B. über Plattenausbeulung. Nr. 4 der Mitteilungen der T.K.V.S.B., Verlag Leemann, Zürich.
- Herrmann, G. (1951). Numerical computation of buckling loads by finite difference. Discussion of a paper by M. G. Salvadori. *Trans. ASCE* 116, 631–633.
- Herrmann, G., Dengler, M. and Goland, M. (1951). A bibliographical survey of automobile and aircraft wheel shimmy. Wright Air Development Center, Report No. 52-141.
- Herrmann, G. (1952). Forced motions of beams and rods governed by Timoshenko type equations. *Proceedings of the Eighth International Congress on Theoretical and Applied Mechanics*, Istanbul.
- Herrmann, G. and Mindlin, R. D. (1952). On the general theory of approximate equations of motion of elastic bodies. *Proceedings of the Eighth International Congress on Theoretical and Applied Mechanics*, Istanbul.
- Herrmann, G. (1954). Forced motions of elastic rods. *J. Appl. Mech.* 21(3), 221–224. Also Office of Naval Research Project Nr-064-388, Technical Report No. 4, February 1953.
- Kollbrunner, C. F. und Herrmann, G. (1953). *A Review on the State of Structural Welding in America*. Memoir of the T.K.V.S.B. No. 6. Verlag Leemann, Zürich.
- Herrmann, G. (1955). Forced motions of Timoshenko beams. *J. Appl. Mech.* 22(1), 53–56. Also Office of Naval Research Project Nr-064-388, Technical Report No. 9, June 1953.
- Herrmann, G. (1954). Application of Green's method in deriving approximate theories of elasticity. Office of Naval Research Project Nr-064-388, Technical Report No. 13, February 1954.
- Herrmann, G. (1954). Influence of large amplitudes on flexural motions of elastic plates. NACA Technical Note No. 3578. Also NACA Contract. Naw-6366 Technical Report No. 1, December 1954.
- Chu Hu-Nan und Herrmann, G. (1956). Influence of large amplitudes on free flexural vibrations of rectangular elastic plates. *J. Appl. Mech.* 23(4), 532–540. Also NACA Contract Naw-6366 Technical Report No. 2, February 1955.
- Herrmann, G. (1956). The influence of initial stress on the dynamic behavior of elastic and viscoelastic plates. *Publ. Int. Ass. Bridge Struct. Engng* 16, 275–294. Also NACA Contract Naw-6366 Technical Report No. 3, March 1955.
- Herrmann, G. and Mirsky, I. (1956). Three-dimensional and shell theory analysis of axially-symmetric motions of cylinders. *J. Appl. Mech.* 23(4), 563–568. Also Office of Scientific Research and Development Command, U.S. Air Force, Contract AF 18(600)1247 Technical Note No. 1, April 1955.
- Chu Hu-Nan und Herrmann, G. (1955). On stress-strain relations of viscoelastic beams and plates. NACA Contract Naw-6366, Technical Report No. 4.
- Mirsky, I. und Herrmann, G. (1958). Axially-symmetric motions of thick shells. *J. Appl. Mech.* 25(1), 97–102. Also Air Force, Contract AF18(600)1247 Technical Note No. 2, November 1955.

- Chu Hu-Non and Herrmann, G. (1956). On the response of compressed visco-elastic plates. NACA Contract Naw-6450 Technical Report No. 1.
- Kollbrunner, C. F. und Herrmann, G. (1956). Der Einfluss des Schubes auf die Stabilität der Platten im elastischen Bereich (The influence of shear on the stability of plates in the elastic range), Neunter Bericht der T.K.V.S.B. über Plattenausbeulung. Nr. 14 der Mitteilungen der T.K.V.S.B., Verlag V.S.B. Zürich.
- Herrmann, G. (1957). On the dynamic behavior of shells. *Proc. Ninth Int. Congr. Appl. Mech.* VII, 293–299.
- Mirsky, I. and Herrmann, G. (1956). Nonaxially-symmetric motions of cylindrical shells. *J. Acoust. Soc. Am.* 29(10), 1116–1123. Also Office of Scientific Research, Air Research and Development Command, U.S. Air Force Contract AF18(600)1247 Technical Note No. 3, December 1956.
- Mirsky, I. and Herrmann, G. (1958). On vibrations of conical shells. *J. Aero. Sci.* 25(7), 451–458. Also Office of Scientific Research, Air Research and Development Command, U.S. Air Force, Contract AF18(600)1247 Technical Note No. 4, April 1957.
- Mirsky, I. and Herrmann, G. (1957). Vibrations of cylindrical shells of elliptic cross-section. Office of Scientific Research, Air Research and Development Command, U.S. Air Force, Contract AF18(600)1247 Technical Note No. 5, December 1957.
- Kane, T. R. (1959). *Analytical Elements of Mechanics* (Collaborator G. Herrmann) Vol. 1. Academic Press, New York.
- Herrmann, G. (1958). On a complementary energy principle in linear thermoelasticity. *J. Aero. Space Sci.* 25(10), 660.
- Chu Hu-Non and Herrmann, G. (1959). Theoretical determination of lifetime of compressed plates at elevated temperatures. National Aeronautics and Space Administration Memorandum 2-24-59W. Also NACA Contract Naw-6450 Technical Report No. 2, January 1957.
- Herrmann, G. (1960). Energy methods for the analysis of temperature distributions and thermal stresses in structures. *Preliminary Publication, Sixth Congr. Int. Ass. Bridge Struct. Engng*, Stockholm, 1960, pp. 139–146. Also Office of Scientific Research, Air Research and Development Command, U.S. Air Force Contract AF49(638)430 Technical Note No. 2, May 1959.
- Kollbrunner, C. F. und Herrmann, G. (1959). *Plattenbeulung im plastischen Bereich mit Berücksichtigung der Schubverzerrung* (Buckling of plates in plastic range taking into consideration the shear stress), Elfter Bericht der T.K.V.S.B. über Plattenausbeulung. Nr. 19 der Mitteilungen der T.K.V.S.B., Verlag Schweizer Stahlbauverband, Zürich, August 1959.
- Herrmann, G. (1960). The effect of creep in compressed plates. *Preliminary Publication, Sixth Congr. Int. Ass. Bridge Struct. Engng*, pp. 779–786, Stockholm, 1960.
- Herrmann, G. and Armenakas, A. E. (1960). Vibrations and stability of plates under initial stress. *J. Engng Mech. Div. ASCE* 86, Part I, 65–94. (Also Office of Scientific Research, Air Research and Development Command, U.S. Air Force Contract AF49(638)430 Technical Note No. 1, February 1959.)
- Armenakas, A. E. and Herrmann, G. (1960). Shear buckling of bars. *J. Appl. Mech.* 27(3). (Also Office of Scientific Research, Air Research and Development Command, U.S. Air Force, Contract AF49(638)430 Technical Note No. 3, October 1959.)
- Herrmann, G. and Armenakas, A. E. (1962). Dynamic behavior of cylindrical shells under initial stress. *Proc. Fourth U.S. National Cong. Appl. Mech. ASME*, 203–213. (Also Office of Scientific Research, Air Research and Development Command, U.S. Air Force, Contract 49(638)430 Technical Note No. 5, April 1960.)
- Herrmann, G. (1962). Instability analysis of cylindrical shells under hydrostatic pressure. NASA Technical Note D-1510, December 1962, pp. 239–244.
- Herrmann, G. (1962). Recent Soviet contributions to instability of shell structures. NASA Technical Note D-1510, December 1962, pp. 721–730.
- Armenakas, A. E. and Herrmann, G. (1963). Vibrations of infinitely long cylindrical shells under initial stress. *AIJA JI* 1(1), 100–106. (Also Office of Scientific Research, Air Research and Development Command, U.S. Air Force, Contract AF49(638)430 Technical Note No. 6, October 1961.)
- Herrmann, G. (1963). Dynamic behavior of supercritically loaded struts. Discussion of paper by G. W. Housner and W. K. Tso. *J. Engng Mech. Div. ASCE* 89, Part I, 169–170.
- Armenakas, A. E. and Herrmann, G. (1963). Buckling of thin shells under external pressure. *J. Engng Mech. Div. ASCE* 89, 131–146. (Also Office of Scientific Research, Air Research and Development Command, U.S. Air Force, Contract AF49(638)430 Technical Note No. 7, August 1962.)
- Herrmann, G. (1963). Temperature dependence of elastic and inelastic properties in solids. Discussion of paper by W. P. Mason. *Proc. Int. Conf. High Temp. Struct. Mater.* Pergamon Press, Oxford.
- Herrmann, G. and Fleming, J. F. (1963). Instrumentation to study the dynamic behavior of cylindrical shells including thermal effects. *Proc. RILEM Symp. Measure. Dynamic Effects and Vibrations of Constructions*, Budapest, Vol. 1, pp. 51–61.
- Herrmann, G. (1963). On variational principles in thermoelasticity and heat conduction. *Q. Appl. Math.* 21(2) 151–155. (Also Office of Scientific Research, Air Research and Development Command, U.S. Air Force, Contract AF49(638)430 Technical Note No. 4 April 1960.)
