

LIST OF CONTENTS

NUMBER 1

- | | | |
|---|----|--|
| V. Dunayevsky and
J. D. Achenbach | 1 | Boundary layer phenomenon in the plastic zone near a rapidly propagating crack tip |
| Moshe B. Fuchs | 13 | Explicit optimum design |
| Ove Ditlevsen | 23 | Stochastic visco-elastic strain modeled as a second movement white noise process |
| Worsak Kanok-Nukulchai
and Vidaneralalage Wimal
Suaris | 37 | An efficient finite element scheme for elastic porous media |
| David Durban and Yehuda
Stavsky | 51 | Elastic buckling of polar-orthotropic annular plates in shear |
| G. P. Parry | 59 | On shear-induced phase transitions in perfect crystals |
| T. Iwakuma and S. Nemat-Nasser | 69 | An analytical estimate of shear band initiation in a necked bar |
| Lewis T. Wheeler and
Isaak A. Kunin | 85 | On voids of minimum stress concentration |

NUMBER 2

- | | | |
|--|-----|--|
| Henrik Schmidt and
Steen Krenk | 91 | Asymmetric vibrations of a circular elastic plate on an elastic half space |
| K. L. Chowdhury and
P. G. Glockner | 107 | Constitutive equations for KDP by group theoretic methods |
| N. Triantafyllidis, A. Needleman
and V. Tvergaard | 121 | On the development of shear bands in pure bending |
| T. C. T. Ting | 139 | Effects of change of reference coordinates on the stress analyses of anisotropic elastic materials |
| Keng-Tung Cheng and
Niels Olhoff | 153 | Regularized formulation for optimal design of axisymmetric plates |
| Thomas R. Kane | 171 | Determinantal equations in structural mechanics |
| | | <i>Announcements</i> |
| | 173 | Conference on Pressure Vessels—Analysis for Design, Manchester, England, 22 April 1982 |
| | 173 | International Conference on Numerical Methods In Industrial Forming Processes, University College, Swansea, Wales, 12–16 July 1982 |

Contents

- 174 Pressure Vessel and Piping Conference, Orlando, Florida, 27 June–2 July 1982
- 175 An International Conference on Finite Element Methods, Beijing (Peking), China, August 1982
- 176 Symposium on Advances and Trends in Structural and Solid Mechanics, Sheraton National Motor Hotel, Washington, D.C., U.S.A., 4–7 October 1982
- 177 International Conference on Constitutive Laws for Engineering Materials: Theory and Application, University of Arizona, Tucson, AZ 85721, U.S.A., 10–14 January 1983
- 179 Erratum

NUMBER 3

- S. S. Hsieh, E. C. Ting and W. F. Chen** 181 A plastic-fracture model for concrete
- Robert M. McMeeking** 199 The finite strain tension torsion test of a thin-walled tube of elastic–plastic material
- Chin-Chan Chu** 205 An investigation of the strain path dependence of the forming limit curve
- Michio Shibata** 217 Analysis of elastic–plastic behavior of a steel brace subjected to repeated axial force
- M. J. Forrestal and D. E. Grady** 229 Penetration experiments for normal impact into geological targets
- David W. Fox and Vincent G. Sigillito** 235 Bounds for eigenfrequencies of a plate with an elastically attached reinforcing rib
- Kevin P. Meade and Leon M. Keer** 249 Dynamic response of an embedded rectangular foundation to antiplane shear waves
- K. L. Chowdhury** 263 On an axisymmetric boundary value problem for an elastic dielectric half-space
- 273 Erratum

NUMBER 4

- Rolf Westlund** 275 Properties of a random creep process
- Ü. Lepik** 285 Optimal design of rigid-plastic simply supported beams under dynamic pressure loading
- R. K. Kaul and C. S. Lee** 297 Free torsional vibrations of a hollow cylinder with laminated periodic structure

J. L. Ericksen	315	On generalized momentum
Alicia Golebiewska Herrmann	319	Material momentum tensor and path-independent integrals of fracture mechanics
M. Pignataro, A. Di Carlo and R. Casciaro	327	On nonlinear beam models from the point of view of computational post-buckling analysis
John F. Geyer and S. Nemat-Nasser	349	Experimental investigation of thermally induced interacting cracks in brittle solids
J. W. Rudnicki	357	Discussion of "On Finite Plastic Flows of Compressible Materials with Internal Friction"
S. Nemat-Nasser	361	Reply to "Discussion of 'On Finite Plastic Flows of Compressible Materials with Internal Friction'"
NUMBER 5		
Vikram K. Kinra and Arun Anand	367	Wave propagation in a random particulate composite at long and short wavelengths
F. Delale and F. Erdogan	381	The crack problem for a half plane stiffened by elastic cover plates
A. H. Shah and S. K. Datta	397	Harmonic waves in a periodically laminated medium
R. S. Rivlin	411	Bifurcation in an elastic plate on a rigid substrate
B. L. Karihaloo and R. D. Parbery	419	Minimum-weight multi-constraint vibrating cantilevers
Akram Zahoor	431	Piecewise power law hardening for ductile tearing instability analysis
F. Lene and D. Leguillon	443	Homogenized constitutive law for a partially cohesive composite material
NUMBER 6		
J. Wauer	459	On the stability of rotating, axially loaded, homogeneous shafts
L. M. Brock	467	Shear and normal impact loadings on one face of a narrow slit
I. Choi and R. T. Shield	479	A note on a flat toroidal crack in an elastic isotropic body
D. F. Yates, A. B. Templeman and T. B. Boffey	487	The complexity of procedures for determining minimum weight trusses with discrete member sizes
J. F. Dorris and S. Nemat-Nasser	497	A plasticity model for flow of granular materials under triaxial stress states
C. Atkinson and R. E. Smelser	533	Invariant integrals for thermo-viscoelasticity and applications

NUMBER 7

- | | | |
|--|-----|---|
| Dusan Krajcinovic and Manuel Americo G. Silva | 551 | Statistical aspects of the continuous damage theory |
| Isaac Elishakoff and Johann Arbocz | 563 | Reliability of axially compressed cylindrical shells with random axisymmetric imperfections |
| S. Dost and P. G. Glockner | 587 | On the dynamic stability of viscoelastic perfect columns |
| S. Murakami and N. Ohno | 597 | A constitutive equation of creep based on the concept of a creep-hardening surface |
| K. Chandrashekhara and A. Bhimaraddi | 611 | Elasticity solution for a long circular sandwich cylindrical shell subjected to axisymmetric load |
| J. Ari-Gur, T. Weller and J. Singer | 619 | Experimental and theoretical studies of columns under axial impact |

NUMBER 8

- | | | |
|---|-----|---|
| S. R. Reid and W. W. Bell | 643 | Influence of strain hardening on the deformation of thin rings subjected to opposed concentrated loads |
| Viggo Tvergaard | 659 | Material failure by void coalescence in localized shear bands |
| D. R. S. Talbot and J. R. Willis | 673 | Variational estimates for dispersion and attenuation of waves in random composites—I. General theory |
| D. R. S. Talbot and J. R. Willis | 685 | Variational estimates for dispersion and attenuation of waves in random composites—II. Isotropic composites |
| D. M. Haughton | 699 | Penny-shaped cracks in a finitely deformed elastic solid |
| T. G. Rogers | 705 | Crack extension and energy release rates in finitely deformed sheets reinforced with inextensible fibres |
| Y. Takao, M. Taya and T. W. Chou | 723 | Effects of fiber-end cracks on the stiffness of aligned short-fiber composites |
| A. F. Mak and L. M. Keer | 729 | A no-slip interface crack in a shear field |

NUMBER 9

- | | | |
|--|-----|---|
| D. J. Allman | 737 | Improved finite element models for the large displacement bending and post buckling analysis of thin plates |
| G. G. Adams | 763 | An elastic strip moving across a rigid step |
| J. R. Barber, Maria Comninou and John Dundurs | 775 | Contact transmission of wave motion between two solids with an initial gap |

- J. R. Barber and Maria Comninou** 783 Rolling of elastic cylinders with friction at supersonic speed
- Alexander P. Seyranian** 791 Sensitivity analysis and optimization of aeroelastic stability
- R. D. Mindlin** 809 Third overtone quartz resonator
- D. K. Sinha and N. R. Chitkara** 819 Plastic collapse of square rings

Announcement

- 827 2nd Cairo University Conference on Mechanical Design and Production, Cairo, Egypt, 27–29 December 1982

NUMBER 10

- L. S. D. Morley** 919 Inextensional bending of a shell triangular element in quadratic parametric representation
- D. Hill, J. Mazumdar and D. L. Clements** 937 Dynamic response of viscoelastic plates of arbitrary shape to rapid heating
- J. A. Trangenstein and H. E. Read** 947 The inelastic response characteristics of the new Endochronic theory with singular kernel
- S. Kyriakides and P. K. Shaw** 957 Response and stability of elastoplastic circular pipes under combined bending and external pressure
- Adnan H. Nayfeh and Mohamed S. Hefzy** 975 Effective constitutive relations for large repetitive frame-like structures
- E. P. Cernocky** 989 An examination of four viscoplastic constitutive theories in uniaxial monotonic loading
- R. D. Marangoni and Nagesh Basavanahally** 1007 Mechanical vibrations in thermorheologically simple viscoelastic beams and plates
- Edward W. Hart** 1031 The effects of material rotations in tension–torsion testing

NUMBER 11

- C. R. Calladine** 829 Modal stiffnesses of a pretensioned cable net
- I. Bloomer** 847 Strain due to a continuous, isotropic distribution of screw dislocations
- S. Nemat-Nasser** 857 On finite deformation elasto-plasticity
- R. A. Ainsworth** 873 The initiation of creep crack growth
- J. P. Curtis and L. J. Walpole** 883 Optimisation of the torsional rigidity of axisymmetric hollow shafts

G. A. Maugin and C. Goudjo	889	The equations of soft-ferromagnetic elastic plates
J. L. Ericksen	913	Multi-valued strain energy functions for crystals
Mark L. Kachanov	917	Screw dislocation in a non-linear elastic continuum

NUMBER 12

S. Adali	1043	Stability of a rectangular plate under nonconservative and conservative forces
Akhilesh Maewal	1053	Steady nonlinear harmonic oscillations of discrete elastic structures
J. P. Carter and J. R. Booker	1059	Elastic consolidation around a deep circular tunnel
M. K. Kassir	1075	A three-dimensional rectangular crack subjected to shear loading
G. C. Gounard and A. Kalnins	1083	Resonances in the sonar cross sections of coated spherical shells
E. N. Kuznetsov	1103	Axisymmetric static nets
Vijay Sarihan and Subrata Mukherjee	1113	Axisymmetric viscoplastic deformation by the boundary element method
P. Lipiński and J. R. Klepaczko	1129	A new experimental method in determining crack propagation transition temperature in steel
R. L. Ryan and S. Mall	1145	Scattering of antiplane shear waves by a submerged crack
S. K. Chakraborty and S. Dey	1153	The disturbance due to plane and line sources in a pre-stressed semi-infinite elastic solids—I
