

## INTERNATIONAL CONFERENCE ON COMPUTATIONAL METHODS IN STRUCTURAL AND GEOTECHNICAL ENGINEERING

12–14 December 1994

The development and application of computational methods in engineering have achieved remarkable progress in the last 30 years. The Conference aims to bring together engineers and scientists with interest in the application of computational methods in structural and geotechnical engineering. It is hoped that the Conference can serve as a forum for the exchange of ideas and experiences related to research and practice in this field and to consolidate recent developments.

The theme of the Conference is “From Theory to Practice”. World renowned experts from both the academic institutions and practising offices will present the state-of-the-art developments in computational methods, expert systems and computer applications in buildings and bridges, foundations, slopes and embankments and other underground constructions. The official language for the Conference is English.

Authors are invited to submit a two-page abstract stating clearly the purpose, methods and conclusions of their work to :

Mr P. K. K. Lee  
Conference Secretary  
(COMSAGE)  
Department of Civil & Structural Engineering  
The University of Hong Kong  
Pokfulam Road, Hong Kong  
Fax : (852) 559 5337  
Telex : 71919 CEREB HX

## FOURTH PAN AMERICAN CONGRESS OF APPLIED MECHANICS

### PACAM IV

3–6 January 1995, Universidad del Salvador, Buenos Aires, Argentina

### CALL FOR PAPERS

**The Fourth Pan American Congress of Applied Mechanics** will be held in **Buenos Aires, Argentina** on the campus of the Universidad del Salvador during **3–6 January 1995**. The Congress is sponsored by the **American Academy of Mechanics** and the **Asociacion Argentina de Mecanica Computacional**, and is open to participants from all over the world.

The purpose of PACAM IV is (1) to expose mature engineers and scientists as well as advanced graduate students to new findings, techniques, and problems, and (2) to provide opportunities for personal interactions through formal lectures and informal conversations.

Papers in all areas of applied mechanics, including computational mechanics, are solicited by the Organizing Committee, which consists of the following people :

**Patricio A. A. Laura**, Bahia Blanca, Argentina, *Chairman*  
**Sergio R. Idelsohn**, Santa Fe, Argentina and **Dean T. Mook**, Blacksburg, Virginia,  
U.S.A., *Vice-Chairmen*
