CORRIGENDUM

Moshev, V. V. and Garishin, O. C. Physical discretization approach to evaluation of elastic moduli of highly filled granular composites. *Int. J. Solids Structures* **30**(17), 2347–2355.

The authors regret that the following errors occurred in the above paper:

1. The scale of ordinate axis in Fig. 2 (p. 2349) must be trebled.
2. The formula (1) on the same page must be replaced by the following expression

$$G_l = E_m R_{min}^2 A(\delta/R_{min})^b,$$

where

$$A = (25+4\psi)\ln(1+\psi); \quad b = 0.15\ln(\delta/R_{min}) - 0.20\ln(0.5+\psi).$$

These mistakes were made at the stage of manuscript writing and were not used in calculations.
