Letter to the Editor

Reply to Comment by J. Liang and H. Ding on “Solutions for transversely isotropic piezoelectric infinite body, semi-finite body and bimaterial infinite body subjected to uniform ring loading and charge”. *Int. J. Solids Structures* Vol. 36, No. 17, pp 2613–2631 (1999), by Ding Haojiang, Chi Yuwei and Guo Fenglin

Yes, our paper does have some important defects. Modifications must be used to obtain the correct results. I have checked Dr. Liang’s results thoroughly upon completion of his work.

The results of our paper should only be adopted for further use with Dr. Liang’s modifications.
