
*Erratum*¹

The article, "Theory of Atomic Spectral Emission Intensity," by **Sten Yngström**,² (*International Journal of Theoretical Physics*, Vol. 33, pp. 1479–1501, (1994)), unfortunately contained an error.

The equation $I = Ze^{-(J+h\nu)/kT}$ in the middle of p. 1500 should read $I = Ze^{-h\nu/kT}$, i.e., equation (62) without subscripts.
