ERRATUM

Modelling of fluid–structure interactions with the space–time finite elements: Arterial fluid mechanics (*Int. J. Numer. Meth. Fluids* (in press) (DOI:10.1002/fld.1443))

Tayfun E. Tezduyar*, Sunil Sathe, Timothy Cragin, Bryan Nanna, Brian S. Conklin, Jason Pausewang and Matthew Schwaab

Following publication of the above article DOI: 10.1002/fld.1443; it has come to the publisher's attention that in Section 2.2.2, the invariant I_3 was mistakenly identified as 'the third invariant of the Green–Lagrange strain tensor.' It should have been identified as 'the third invariant of the right Cauchy–Green deformation tensor.' The computation reported in the paper was based on that.

In Section 4.1.2, the exponent of the value given for the second Mooney–Rivlin material constant was mistakenly typed as '5'. That should have been '4'.
