

CONTENTS LISTS

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume VI, No. 7

July, 1963

	<i>Page</i>
E. M. KRAVCHUK: Measuring thermal coefficients by the absolute method of the third kind regular regime with compensation of irregular process	3
V. K. SHCHUKIN: Methods for local heat-transfer coefficients estimation of a cylinder surface in a flow	7
N. B. KONDUKOV, A. N. KORNILAYEV, I. M. SKACHKO, A. A. AKHROMENKOV and A. S. KRUGLOV: Study of particles path in a fluidized bed by the radio-isotopes method	13
A. I. TAMARIN: On self-excited oscillations in a fluidized bed	19
J. CIBOROWSKY and M. BADZYNSKI: Free loose material discharge from the conical bottom of a vessel	26
V. M. BRODYANSKY: Thermodynamic analysis of the gas liquefaction process	36
P. M. KESSELMAN and V. A. RABINOVICH: Thermodynamic properties of dissociated hydrogen and oxygen	43
N. I. MEL'NICHENKO: New general formula for saturated vapour pressure of liquids with different chemical compositions	50
A. G. TABACHNIKOV: Estimation of thermodynamic properties of real gases at high temperatures. Ammonia state equation	54
V. A. FABRIKOV: Thermodynamic interpretation of the Manley-Rowe relations pertaining to the theory of non-linear electric oscillations	60
V. YU. KIM: Transient heat conduction in a hollow cylinder with the known boundary conditions	66
A. B. VERZHINSKAYA: The effect of side heat losses on the temperature field in semi-infinite rods with a plane source of constant strength	70
P. I. KHRISTICHENKO: Transient heat conduction and thermoelastic stresses in a hollow cylinder	76
E. P. TROFIMOV: The temperature field of an infinite hollow cylinder	83
K. I. STRAKHOVICH and YU. A. SOKOVISHIN: Study of temperature distribution over a laminar jet of heat conducting gas outflowing into the space with magnetic field	88
B. N. STADNIK and M. F. KAZANSKY: The effect of the moisture content on ultrasonic propagation in capillary bodies	94
P. E. MIKHAILOV: Method of calibration and checking of hygrometers by saturation deficit in a three-chamber hydrothermostat	98
E. A. IODKO: Analytical method for solidification calculation of the simplest shaped bodies	101
B. M. LEPINSKIKH and N. A. VATOLIN: Surface tension and density of iron-sulphur and iron-phosphorus melts	109
B. F. TRAKHTENBERG and YA. F. RUTNER: Analysis of thermal processes in swages in a swaging cycle	113
G. I. TSOIMAN: State equation of difluorodichloromethane (Freon-12)	121

Letters to the Editor

V. V. SYCHEV: Some thermodynamic peculiarities of a triple point	124
A. F. KHRUSTALEV: On a temperature field of a uniform semi-space	126
V. P. MOTULEVICH: Supplementary material to the paper: "Turbulent heat and mass transfer on a plate with porous suction and injection of different gases"	127
P. I. KHRISTICHENKO: Comment on "The solution of problems of non-stationary heat conduction of hollow cylinders by the Grinberg method" by S. N. PLYAT	128

Reader's Guide

International Journal of Heat and Mass Transfer, Vol. 6, April 1963	130
Heat and Mass Transfer Bibliography	133

Volume VI, No. 8

August, 1963

	<i>Page</i>
A. P. BASKAKOV and V. S. VERSHININA: An investigation into heat transfer between packing and a fluidized bed in interparticle channels	3

	<i>Page</i>
S. S. CHERVYAKOV: An experimental study of the effect of vibration on heat and mass transfer of a cylinder and cone in a turbulent air flow	10
A. L. MOSSE and L. N. KHITRIN: A study of combustion of carbon particles in a flow in a high temperature region	15
V. A. BORODULYA: On thermal calculation of a thin fluidized bed with cross motion of heat agents	22
V. M. KAPINOS: On determination of heat-transfer boundary conditions in turbines	28
S. M. KOTLYAR: On heat conduction of a two-layer system	37
D. V. FEDOSEEV and S. V. SHTIMAN: On flow with friction and heat transfer in a conical nozzle	41
V. E. ANISIMOV, B. I. BLINOV and V. CH. REUTT: On the relation between a liquid combustion rate and its surface temperature	45
N. I. NIKITENKO: An approximate method for calculating a non-steady temperature field in a moving fluid	52
YU. A. SAMOILOVICH: Temperature stresses in a plate and cylinder heated by radiation and convection	59
L. N. GRIGORIEV: Formation of a new phase with boiling of binary mixtures	66
V. I. KRYLOVICH: A temperature field in the electric arc heater with a rotating arc	70
P. M. KESSELMAN and A. G. TABACHNIKOV: On determination of equilibrium constant of the ammonia dissociation reaction over a wide range of temperatures and pressures. II	78
A. A. SEMERCHAN and M. A. PLOTNIKOV: On methods of the blow-out of liquid jets at a high pressure	82
YU. A. BORISOV and V. I. KUDASHEV: Calculation of a real gas elasticity curve following data on two substances	88
M. P. OVSYANNIKOV: External drag of ducted bodies with an elliptical cone and with inlet supersonic speeds	92
M. V. BELUBEKIAN: A boundary layer in an electrically conducting liquid in the presence of a longitudinal magnetic field	97
A. M. ZHURAVLYOV: Thermodynamic properties of methyl alcohol	106
B. A. ZENKEVICH and O. V. REMIZOV: Critical thermal stresses with an external underheated low-velocity water flow past a tube in a square duct	112
<i>Letters to the Editor</i>	
V. V. SYCHEV: On the anomalous character of the p - T -diagram for water at low temperatures	116
<i>Prominent Soviet Scientists</i>	
BEKIR MIKHAILOVICH SMOLSKY	118
<i>Survey</i>	
B. M. SMOLSKY: Power-current heat treatment of materials	120
I. T. ALADIEV and V. A. EFIMOV: Intensification of heat transfer in electrical fields	125
<i>Shorter Communication</i>	
A. L. PARNAS: Comment on "On heat transfer of a thin wire in a transverse air flow when heated by alternating current" by M. A. GOLDSHTIK	133
<i>Chronicle</i>	
I. T. ELPERIN: Scientific Engineering Conference of Higher Educational Institutions on Industrial Thermal Energetics	138
<i>Readers' Guide</i>	
<i>International Journal of Heat and Mass Transfer</i> . Vol. VI, No. 5, May, 1963	139
