

## CONTENTS LIST

### JOURNAL OF ENGINEERING PHYSICS

*(Published in the U.S.S.R. in Russian with English abstracts)*

Volume VI, No. 12

December, 1963

	<i>Page</i>
G. T. SERGEEV and L. A. SERGEEVA: Experimental study of heat and mass transfer process with transpiration cooling of differently shaped bodies	3
V. L. LELCHUCK and G. I. ELFIMOV: Heat transfer from a wall to a turbulent flow of carbon dioxide in a circular tube with high heat fluxes	11
V. I. KASPER: Study of heat and mass transfer process in a tube of a pneumatic gas drier	15
A. I. LYUBOSHITS: Application of a multistage heat exchanger with packings for heating of air to high temperatures	21
I. T. ELPERIN: Heat and mass transfer in reacting systems	27
N. N. BEREZHNOI: Determination of thermal diffusivity of pellets	35
L. M. NIKITINA: Chemical potential of mass transfer in capillary-bound moisture	40
V. M. KAZANSKY: Specific heat of evaporation and potential of moisture transfer in capillary-porous bodies	44
A. M. SIROTA: Heat capacity of water and steam at constant pressure on the saturation curve	52
V. KH. NI: Two-dimensional problem of heat and mass transfer	56
A. D. PINCHEVSKY: A temperature field in conditions of pulsed change of the temperature	66
S. S. SILIN: Calculation of temperature fields accounting for moving heat sources	73
L. M. GALONEN: Non-stationary heat conduction problem in non-uniform laminated slabs	81
V. S. DANIEL-BEK: Methods for calculation of specific energy of fuel cells	85
A. SH. DORFMAN and M. I. SAIKOVSKII: Determination of the optimum diffuser shape in a stall flow with the arbitrary line	88
A. V. BULYGA and A. G. SHASHKOV: Semiconductor vacuum-gauge	95
A. S. PREDVODITELEV: On state equations of carbon monoxide and dioxide	101
V. M. NAUMOVICH, N. I. GAMAYUNOV and O. A. TSEPLYAEV: Thermal pressing of peat in vacuum	107
E. I. MIKULIN and I. V. MARFENINA: Thermodynamic diagrams of neon and some properties of it	111
Z. I. FUR: On the mechanism of combustion propagation in nitro-powders	118
Z. P. SCHULMAN and B. M. BERKOVSKY: Similarity problem of a laminar boundary layer on a permeable curvilinear surface	125

#### *Reader's Guide*

Heat and Mass Transfer Bibliography	127
<i>International Journal of Heat and Mass Transfer</i> Vol. 6, No. 9 (September 1963)	135
