

CONTENTS LISTS

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume VII, No. 5

May, 1964

	<i>Page</i>
N. A. SHAKHOVA and A. G. GORELIK: Infra-red heating and drying of granular material in a fluidized bed	3
N. V. KHARCHENKO and K. YE. MAKHORIN: On heat-transfer rate between a fluidized bed and the immersed body at high temperatures	11
A. I. TAMARIN: Thermal calculation of a fluidized bed with cross flow of a gas and material	18
N. V. SELEZNEV: Method for calculation of some moisture-transfer coefficients by drying kinetics curves	23
A. S. GINZBURG and M. V. PODOL'SKY: An investigation into heat and mass transfer with sublimation drying of liquid materials	28
K. B. GISINA and R. I. SHOFER: The influence of interface movement in capillary-porous and colloid bodies on heat- and mass-transfer process with ice sublimation in vacuum	34
YE. A. ERMAKOVA: An investigation into temperature distributions with evaporation from solid state in vacuum	39
A. L. PARNAS: Temperature factor influence on hydrodynamic resistance of a cylinder in cross air flow	45
V. S. NOVOPAVLOVSKY: The error of measurement of a surface temperature by a resistance thermometer	52
M. G. KAGANER and L. I. GLEBOVA: Effect of filling gas on heat transfer in porous materials	59
A. YE. SHEINDLIN, V. YA. CHEKHOVSKOY and V. A. PETROV: Enthalpy and heat capacity of corundum melt up to a temperature of about 2800°K	63
V. F. BREKHOVSKIKH: Experimental determination of integral emissivity of Ge	66
YU. A. KIRICHENKO, B. N. OLEINIK and T. Z. CHADOVICH: Thermal properties of polymers	70
L. L. VASILIEV: A method and equipment for determining thermal properties of heat-insulating materials in the temperature range from 80°K to 500°K	76
L. P. KHOLPANOV: On heat transfer at high <i>Pr</i> of a horizontal plane immersed into a volume of a rotating fluid	85
N. YU. TAITs and A. S. KADINOVA: Heat conductivity differential equation solutions for a hollow cylinder under boundary conditions of the first and the third kinds	88
YU. A. PLATOVSKIKH: Calculation of critical state of a "boiling" reactor	92
G. D. SALAMANDRA, I. K. FEDOSEEVA and N. M. BYKOVA: Measurement of gas velocity behind a shock wave	96
G. YE. SKVORTSOV: On particle motion in a free jet	100
YE. S. GOLOVINA and G. P. KHAUSTOVICH: High temperature interaction of carbon with carbon dioxide	106
A. I. USMANOV: Liquid jet efflux into a subsonic air flow	112
<i>Letter to the Editor</i>	
E. I. GUIGO: On radiant heat supply mechanism in the process of sublimation drying	119
<i>Chronicle</i>	
S. S. ZABRODSKY, G. YA. Leizerovich, N. B. RASHKOVSKAYA and I. T. ELPERIN: The All-Union Seminar on the Fluidized Bed	121
<i>Reader's Guide</i>	
<i>International Journal of Heat and Mass Transfer</i> , Vol. 7, No. 2, February 1964	125
Heat and Mass Transfer Bibliography	128

JOURNAL OF ENGINEERING] PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume VII, No. 6

June, 1964

	<i>Page</i>
L. P. FILIPPOV, N. A. TUGAREVA and L. I. MARKINA: Methods for determining small pulsations of high temperatures and their application to determining metal heat capacity	3
V. I. DEEV and A. N. SOLOVIEV: On boiling mechanism of liquid sodium on the heating surface with natural convection	8
Z. L. MIROPOLSKY, M. E. SHITSMAN and V. YU. PIKUS: Study of the effect of frequency and amplitude pulsations of consumption on critical heat fluxes	13
V. B. TIKHOMIROV and I. V. VARLAMOV: Study of arc plasmatron operation	16
L. L. VASILIEV and G. A. SURKOV: Method for investigation of thermal properties of bad heat conductors in a temperature range from 80° to 500°K	20
YU. A. SAMOILOVICH and E. P. BLOKHIN: Thermal diffusivity determination of cast steel	27
A. D. AKIMENKO: Peculiarities of film boiling in water surface cooling	32
V. S. GOLOVIN, B. A. KOLCHUGIN and D. A. LABUNTSOV: Investigation of boiling heat transfer of ethyl alcohol and benzole on the surface of various materials	35
R. S. TULPANOV: Some flow peculiarities in very rough tubes	40
M. M. VEVIOROVSKY and S. A. RUMYANTSEV: Determination of phase contact surface in bubbling systems	44
YU. A. KOSHMAROV: On the rarefaction effect on gas dynamic friction with gas blowing or suction through the wall in a flow	48
L. M. SIMUNI: Some problems of heat transfer and viscous fluid dynamics	55
G. L. POLYAK and V. N. ADRIANOV: A new investigation method for radiative heat transfer	63
G. P. BOIKOV: Ordered thermal regime in radiative heating of bodies	70
YA. S. PODSTRIGACH and YU. M. KOLYANO: Temperature stresses in thin infinite plate heated by sources in the presence of heat transfer	72
A. T. SYCHEV: Air distribution by semi-infinite submerged turbulent jet from a fan	81
A. A. VASSERMAN: Thermal properties of saturated oxygen and nitrogen	86
E. T. VASKOV: Experimental study of thermal properties of methyl perfluorobutyric ether	92
A. T. USOV: Calculation of heating of asymmetric plate with arbitrary changing boundary conditions	97
I. F. ZHEREBYATIEV and A. T. LUKIANOV: Solution of transient heat-conduction problems involving transitions with the coefficients depending on temperature	102
I. I. MOROZOV and V. I. ESIN: On determination of polytropic curve index of the gas expansion process in a high-pressure vessel	108
A. N. REZNIKOV and YU. A. NOVOSELOV: Approximate method for determination of temperature fields in wedges	114
V. I. MARCHENKO and I. G. BARANTSEVA: Definition of thermal conductivities of sesqui-sulfides of some rare-earth metals	120
<i>Survey</i>	
N. N. ZAKHAVAIEVA: Various filtration regimes of rarefied air. Their practical relevance	123
<i>Discussion</i>	
YA. Z. KAZAVCHINSKY: Expression of the real gas state through elementary functions. Methods for their determination	129
<i>Letter to the Editor</i>	
V. I. ALFEROV and A. S. BUSHMIN: Experimental study of electrostatic field effect on thermocouple readings	135
<i>Chronicle</i>	
L. M. KAMINSKY, M. V. LUIKOV and V. L. SHEVELKOV: Automatization of drying processes applied in industry and agriculture	137

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume VII, No. 7

July, 1964

E. S. BOROVIK, I. F. MIKHAILOV and N. A. KOSIK: Fluid friction and heat transfer in serpentine counterflow heat exchangers	3
M. K. KLEINER and N. YU. TAITs: Heating of thin bodies with linear variation of a water number for heating gases	9
N. I. GELPERIN, V. G. AINSTEIN and I. D. GOIKHMAN: On the range of existence of a fluidized bed	15
B. M. GRAKHOVSKY and V. D. SEMENENKO: Particles density distribution in a fluidized bed according to the residence time	20
N. B. KONDUKOV, A. N. KORNILAEV, A. A. AKHROMENKOV, I. M. SKACHKO and A. S. KRUGLOV: Study of particles motion parameters in a fluidized bed by an isotropic method. II. Kinematics of particles	25
A. A. DOLINSKY: Peculiarities of the high-temperature drying kinetics of a colloid solution droplet	33
E. A. ERMAKOVA: Some results of experimental study of ice evaporation in vacuum	37
B. A. ZENKEVICH: On the effect of subcooled water flow velocity on burnout heat fluxes	43
G. D. SALAMANDRA and I. K. FEDOSEYEVA: Measurement of gas velocity in an inflammable fluid	47
V. M. KAZANSKY: Specific heat of moisture evaporation from some natural polymers	53
B. R. BERGELSON and G. A. ZORIKOV: The Vigner energy and safety operating conditions for reactor graphite	57
V. L. SERGEYEV and F. B. YUREVICH: Characteristics of the electric arc heater with two cooled electrodes	62
SH. N. PLYAT and L. B. SAPOZHNIKOV: Temperature distribution in building concrete	65
V. V. IVANOV: Temperature distribution in a toroidal coil heated by electric current	72
YU. V. VIDIN and G. P. BOIKOV: Application of the zonal calculation method to asymmetric heat conduction problems	75
G. A. SURKOV and V. I. KRYLOVICH: Application of integral transformations to the solution of heat conduction problems with a moving boundary	80
YA. P. STOROZHUK and V. I. ANTONOVSKY: Determination of a semi-spherical radiant flow of a flame torch by radiometer with a small vision range	87
V. V. KURZHUNOV: Some experimental data on the effect of pressure on vibrating distribution of a flame in pipes	91
G. A. KARDASHEV: Contribution to the theory of acoustic diffusion	96
V. A. DITKIN and A. P. PRUDNIKOV: Operational calculus of functions of the integer argument and some applications to the discrete analysis	101
E. RUCKENSTEIN: The influence of the Maragoni effect on mass transfer in film boiling	116

Prominent Soviet Scientists

SAMSON SEMYENOVICH KUTATELADZE	121
--------------------------------	-----

Criticism and Bibliography

G. A. MAKSIMOV: On the book "Tables of Equilibrium Specific Moisture Content and Bond Energy Between Moisture and the Material" by L. M. Nikitina	123
V. S. SOROKIN: On errors of the paper "Free stream of thin viscous layers on a vertical surface" by B. S. Kasimov and F. F. Zigmund	125

Reader's Guide

<i>International Journal of Heat and Mass Transfer</i> , Vol. 7, Nos. 3, 4 (March and April), 1964	126
Heat and Mass Transfer Bibliography	130

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume VII, No. 8

August, 1964

	<i>Page</i>
K. M. AREFIEV and I. A. GNEDINA: Critical formula for critical heat fluxes in forced motion of a subcooled liquid	3
Z. L. MIROPOLSKY: Pulsations of mass-flow rate in evaporating tubes containing an elastic fluid in auxiliary elements of the duct line	9
I. T. ELPERIN, D. M. GALERSHTEIN and L. I. LEVENTAL: The effect of surface phenomena and unsteady state on transfer processes in heterogeneous systems	16
M. D. VAISMAN and K. S. POLYAKOV: Adiabatic flow of an evaporating liquid	20
A. A. ZHERKO: Heat and mass transfer in drying of ceramic bodies in a heated fluid	27
B. F. GROMOV and A. S. TROFIMOV: Heat transfer in nuclear reactors	31
R. I. GAVRILOVA: Kinetics of the drying process with variable heat and mass transfer coefficients	37
N. I. GAMAYUNOV: Heat and mass transfer in anisotropic bodies	43
A. F. KHRUSTALYEV: A steady-state problem of the heat-conduction theory for a parallel plane layer	47
G. T. SERGEEV: Two-dimensional steady-state heat conduction of a ribbed surface	51
V. V. DILMAN, T. A. ZHILYAEVA and M. B. AIZENBUD: Determination of the longitudinal turbulent diffusion coefficient	55
A. A. POMERANTSEV: The scheme of the onset of shock waves in supersonic flows of rarefied gases	59
I. P. GINZBURG: The relation between the heat content and velocity in a boundary layer gas flow	64
R. E. KRZHIZHANOVSKY and N. P. SIDOROVA: Determination of thermal conductivity of liquid-metal heat agents by the longitudinal heat flux method	75
A. B. VERZHINSKAYA and P. S. KUTS: The relation between thermal properties of heat-insulating peat slabs and the moisture content during a drying process	81
E. M. KRAVCHUK: The accuracy of thermal coefficients determined by the method of plane temperature waves	85
I. M. RAZUMOV, N. I. NIKITINA and M. E. AEROV: Simulation of heat fields of apparatuses with uniformly distributed internal heat sources with prescribed boundary conditions of the third kind	89
A. E. MAREN OV: Heat transfer in a laminar slip flow	93
M. G. KAGANER and R. S. SEMYENOVA: Heat transfer in the throat of vessels for liquid oxygen	97
A. M. TSIRLIN, B. D. VORONIN and G. YA. KHODOV: Hydraulic resistance of tubes with irregularly shaped filling containing a high temperature gas flow	103
I. N. AKHVERDOV and N. K. YAGOVDIK: The effect of high temperatures on physical and mechanical properties of cement stone	108
YU. P. BASS and L. P. GILYAZETDINOV: Calculation of the length of a soot generator	114
U. TS. ANDRES and L. S. POLAK: Measurement of electromagnetic extrusion from an electrically conducting liquid	121
S. K. ASLANOV and V. V. KURZHUNOV: The mechanism of vibration combustion of gas mixtures	124
I. B. STECHKINA: Diffusion to a cylinder at small Reynolds and Peclet numbers	128
<i>Letter to the Editor</i>	
Z. P. SHULMAN and B. M. BERKOVSKY: An approximate method for calculation of a laminar boundary layer on a penetrable curved surface	131
<i>Criticism and Bibliography</i>	
A. P. BASKAKOV: The book "Thermal Similarity, Convective Heat Transfer and Entropy" by YA. I. ASNIN	133
<i>Chronicle</i>	
Conference on New Physical Methods of Food-Stuff Treatment	137
<i>Reader's Guide</i>	
International Journal of Heat and Mass Transfer, Vol. 7, No. 5, May 1964	139

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume VII, No. 9

September, 1964

	<i>Page</i>
S. G. PLATONOVA: An investigation of heat transfer and resistance of some compact surfaces	3
L. S. KUZUYAEV and YU. I. PROTASOV: Measurement of the rock surface temperature in thermal boring	10
YU. S. POSTOLNIK and M. A. TYLKIN: Analytical and experimental determination of temperature performance conditions of bloom shear blades	14
N. P. POPOV: An investigation of volumetric density of mixed powder medium by gamma-ray bombardment	19
N. P. BELIK, N. M. BELYAEV and G. S. SHANDOROV: A calculation of gas volume evacuation	25
G. V. ALEKSEEV, B. A. ZENKEVICH and V. I. SUBBOTIN: Burnout heat fluxes in annular channels with two-sided heat supply	30
E. N. OVCHINNIKOVA and S. M. BUDUR: Evaporation kinetics of spherical gel-like bodies in an air flow	34
V. I. MALYUKEVICH: Heat transfer between moving dispersion medium and a tube wall	38
I. N. SADIKOV: Heat transfer in the entrance regions of plane and rectangular passages	44
YU. A. FINAEV: Heating rate of peat particles in burning	52
M. YA. ANTIMIROV and Z. I. GELLER: Solution of thermal problems concerning the movement of the boundary according to the law $\beta \sqrt{t}$	57
V. F. KOLESOV: Non-stationary thermoelasticity problems for a plate and cylindrical envelope	64
P. E. BULAVIN and V. M. KASHCHEEV: Non-uniform heat-conduction equation for multilayer bodies	71
L. A. KOZDOBA and V. I. KRYLOVICH: Some investigation results of a temperature field of electrical-arc heater elements on compound electrical models	78
A. G. SHASHKOV: Block diagrams for measuring flow parameters with the help of thermistors	83
S. K. ASLANOV: The effect of temperature conditions on stability of the rotational fluid motion	88
M. TRIBUS and R. EVANS: The probability foundations of thermodynamics	92
I. T. ELPERIN and V. A. MINKOV: On the use of two-phase systems as a thermodynamic working body	102
M. A. KROPOTKIN and B. P. KOZYREV: Determination of materials emissivity from their infra-red reflection spectra	108
E. I. NESIS: On the cause of noise in boiling of liquids and mixtures	113
A. A. UGLOV: A temperature field of a single crystal obtained by the Chokhalsky method	118
ERNST R. G. ECKERT (to his 60th birthday)	121

Reader's Guide

<i>International Journal of Heat and Mass Transfer</i> , Vol. 7, No. 6, June, 1964	123
Heat and Mass Transfer Bibliography	127

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume VII, No. 10

October, 1964

	<i>Page</i>
V. V. USANOV: The relation between heat transfer and resistance in a transonic region	3
S. I. KOSTERIN and YU. P. FINATIEV: Prediction of hydraulic resistance of annular ducts	6
V. I. BAKULEV: Calculation of the main portion of an axisymmetric turbulent real gas jet	14
V. A. ELEMA: A particular temperature extrapolation method of thermal data for real gases	21
A. P. KOVALYEV, A. S. IPPOLITOV, YU. M. TORGONENKO, D. BHADURE, N. I. CHELNOKOV and YU. P. SHNEIDER: Flame propagation in laminar and turbulent flows	28
A. L. PARNAS: Experimental study of the unsteady air-flow effect on heat transfer of a cylinder in a transverse flow	37
I. I. VISHNEVSKY and M. I. DZYUBENKO: Measurement of thermal conductivities and thermal diffusivities of refractory materials by the unsteady-regime method	45
G. N. DULNEV and Z. V. SIGALOVA: Thermal conductivity of granular systems	49
B. S. KRYLOV, B. I. PYATACHKOV and T. M. ROMANOVA: Main factors controlling drying of peat-insulating slabs	56
M. I. SOLOVIYEV: Suspension and transport of granular materials in a horizontal pipeline	62
M. K. KLEINER and N. YU. TAITIS: Determination of the optimum thermal and temperature conditions of a furnace for high-rate heating of thin bodies	67
YU. E. FRAIMAN: An absolute method of a complex determination of thermal properties of non-metallic materials	73
E. T. ARTYKPAEV: Particular problems of the heat-conduction theory	80
A. G. TEMKIN: Reconstruction of heat and mass content fields of a colloid capillary-porous body	85
V. I. KISLYKH: Distribution of a solid phase along the height of a fluidized bed	94
M. V. VOLK-LEVANOVICH: Measurement of alternative-current arc temperatures by self-reverse spectrum lines	98
V. A. PALAGIN: Determination of thermistor heat capacities	102
F. ALIEV: The effect of the initial mass-flow rate on development of a submerged non-isothermal round jet in an incompressible fluid	106
S. V. VAKHLAMOV: Prediction of a jet path in a lateral stream	112
I. A. SELIVANOVA and D. T. KOKOREV: Experimental determination of the radiant flux attenuation coefficient by selective-absorbing medium	117
V. A. EVGRAFOV: A probability estimation of the dispersed medium structure	121

Book Review

A. F. CHUDNOVSKY and SH. N. PLYAT: The monograph by A. I. PEKHOVICH and V. M. ZHIDKIKH: <i>Calculation of a Non-Stationary Temperature Conditions in a Plate by Plots</i> . Gosenergoizdat, 1963	128
--	-----

Chronicle

I. T. ELPERIN and G. D. RABINOVICH: The 2nd All-Union Heat and Mass Transfer Conference	130
---	-----
