

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume VIII, No. 3

March, 1965

	<i>Page</i>
I. N. SADIKOV: Laminar heat transfer in a plane passage with non-uniform temperature distribution at the entrance	283
V. M. BORISHANSKY and B. S. FOKIN: Correlation of heat-transfer data on steady film boiling on vertical surfaces under free convection in a large volume	290
N. P. SHAMANOV: Generation and growth of bubbles in water boiling in channels	294
V. I. BUDNIKOV and A. V. SERGIEVSKY: On the stability of the system of parallel boiling channels	300
S. A. KAGANOV: Liquid flow between rotating coaxial cylinders with regard for friction heat and dependence of the viscosity on temperature	307
M. M. NAZARCHUK: On the subsonic region of a viscous gas flow in a plane parallel flow	311
V. V. DILMAN: A non-stationary diffusion flow to the moving droplet with small Re	319
M. S. SAMOILOV: A contribution to the theory of a turbulent incompressible vortex jet	325
YU. A. DUSHIN: Heat-protecting devices with overhanging facing	330
V. V. PUCHKOVSKY: Moisture transfer due to an internal heat source in a closed system	336
YU. A. BURKOVICH: Diffusional and thermal relaxation on a plane evaporating surface	341
V. D. SMIRNOV: Filling and emptying vessels of a limited capacity with compressed gas for non-variable and variable volume of a vessel	349
V. V. IVANOV and A. V. FURMAN: A temperature field of an infinite atmospheric prism with internal heat generation	358
B. E. NEIMARK and T. I. BYKOWA: Thermal conductivity of nickel pipes with thin walls	361
M. A. SHALIMO: Acoustic coagulation of cement paste	364
V. V. SALOMATOV and G. P. BOIKOV: Radiant heat flux in heating bodies by variable-temperature heat source	369
G. A. SURKOV: Application of finite integral transformations to problems of non-stationary heat conduction of hollow cylinders with a movable internal boundary	375
P. V. TSOI: Matrix functions and their application to heat- and mass-transfer problems	380
L. ZH. ZHUMABEKOV: A particular heat- and mass-transfer problem	386
YA. M. RAIKIN: Prediction of the vapour-water mixture velocity worsening heat transfer	393
P. M. KESSELMAN and S. F. GORYKIN: On thermodynamic similarity of nitrogen, oxygen and air	396
<i>Letters to the Editor</i>	
P. K. KONAKOV: On the differential method of heat-transfer study	401
D. A. LABUNTSOV: Heat transfer of a non-isothermal plate with a laminar boundary layer	403
<i>Prominent Soviet Scientists</i>	
ALEKSANDR YAKOVLEVICH MILOVICH	406
KONSTANTIN IVANOVICH STRAKHOVICH	409
NIKOLAI IVANOVICH SYROMYATNIKOV	411
<i>Book Review</i>	
On the book by S. S. ZABRODSKY: <i>Hydrodynamics and Heat Transfer of a Fluidized Bed</i>	413
<i>Reader's Guide</i>	
<i>International Journal of Heat and Mass Transfer</i> , Vol. 8, No. 11 (December 1964)	415
