

CONTENTS LISTS

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume X, No. 6

June, 1966

	<i>Page</i>
I. S. MAKAROV and B. G. KHUDENKO: A system of plane turbulent streams in a chamber	707
A. N. REZNIKOV and YU. A. NOVOSELOV: Temperature rise in a wedge under the action of a source of variable dimensions and intensity	712
M. D. TARNOPOLSKY and E. S. GOLIKOV: On the determination of the bottom pressure after a step in a stagnation flow	718
I. A. ROZOV: The method for determining the temperature dependence of thermal conductivities of dielectric and semiconducting materials	723
B. A. VASIL'EV: The solution of a plane steady-state problem of the heat-conduction theory with the boundary condition of the third kind for regions of a special class	728
A. P. BASKAKOV and B. V. BERG: Heat transfer between a fluidized bed and a cylinder immersed in it	738
L. D. KAPUSTA, M. I. RABINOVICH and A. A. SHREIBER: On the motion and heat transfer of particles in a pulsating gas flow	744
V. S. RAVIN: On one presentation of the solution of a heat conduction equation	750
YU. I. BINDER and N. B. KONDUKOV: Study of heat transfer between phases in a fluidized bed	754
YU. P. KUROCHKIN: Heat transfer between tubes of various profiles and a flow of granular material	759
A. N. KORNILAEV and N. B. KONDUKOV: Study of the particle motion parameters in a fluidized bed by the method of radioactive isotopes III. Mean particles velocities	764
F. S. YUGAI and B. P. VOLGIN: On the interaction of a two-phase gas-liquid flow in a Venturi scrubber	771
A. T. LITVINOV: On a relative motion and inertia run of particles	776
V. I. NEDOSTUP: A correlation method for the corresponding states law for the calculation of the thermodynamic properties of real gases and their mixtures	783
L. S. SLOBODKIN and B. A. LARIONOV: The effect of solid adsorbents structure on the process of contact mass transfer with absorption of bond from thermoplastic systems	789
M. A. BAGIROV, V. P. MALIN and B. P. NIKOLAYEV: Temperature distribution in a bar with temperature oscillation on its surface	794
N. I. GELPERIN, V. G. AINSHTEIN and A. V. ZAIKOVSKY: Heat-transfer intensity changes over the perimeter of a horizontal tube section in a fluidized bed	799
<i>Letter to the Editor</i>	
M. M. VEVIOROVSKY and S. A. RUMYANTSEV: Addition to the paper "Determination of phase contact surface in bubbling systems" (<i>Inzh.-Fiz. Zh.</i> No. 6, 1964)	803
<i>Review</i>	
M. P. VOLAROVICH and N. I. MALININ: On deformation and rigidity properties of concentrated disperse systems	804
<i>Chronicle</i>	
The London Meeting of the American and British Institutes of Chemical Engineers	813
<i>Reader's Guide</i>	
Contents list of the <i>International Journal of Heat and Mass Transfer</i> , Vol. 9, No. 2 (February 1966)	821
Heat and Mass Transfer Bibliography	823
Contents of the <i>Journal of Engineering Physics</i> , Vol. 10, 1966	839

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume XI, No. 1

July, 1966

	<i>Page</i>
I. V. SKOKOV and V. A. EMEL'YANOV: Application of multi-beam interferometer to calculation of axi-symmetric nonuniformities in rarefied gases	3
L. K. ZHITKEVICH and L. E. SIMCHENKO: Study of local and mean heat transfer of a sphere with air flow	10
F. R. SHKLYAR and YU. G. YAROSHENKO: Heating and cooling by gas of a stationary two-component solid bed	15
G. A. MIKHAILOVSKII: On gas transpiration cooling	22
M. G. KAGANER: Contact heat transfer in granular material in vacuum	30
P. D. LEBEDEV, B. I. LEONCHIK and I. T. EL'PERIN: Determination of potential transfer fields in coarse-dispersed gas suspension flows	37
B. V. BERG and A. P. BASKAKOV: Experimental study of heat transfer between a fluidized bed and cylindrical surface	42
Z. R. GORBIS, L. M. BELYI and I. K. SHUMAKOV: Particle residence time in a counter-flow gas suspension studied by the tracer method	48
K. K. AZROYAN, G. I. BOBROVA, A. V. LUIKOV and G. D. RABINOVICH: Experimental study of the viscous liquid flow effect on transfer processes	54
E. G. PALAGIN: Phase transition kinetics at the interphase of two long objects	60
M. B. RIVKIN: Application of two-phase fluidization to pressure transport in a dense phase	68
O. A. BUNIN and S. A. PLAKSIN: Equilibrium moisture content of materials in vapour and vapour-air media	74
V. K. VORONTOV: Temperature stresses due to internal friction in the chamber of tyre-pneumatic coupling	78
A. G. TEMKIN and YU. G. ERSHOV: Calculation of internal heat- and mass-transfer parameters in fiber drying	83
N. V. AFANAS'EV, L. N. BYSTROV, L. G. VOROSHIN and S. N. KAPEL'YAN: Mass transfer and geometry of cavities due to spark and discharge in a sealed chamber	88
G. A. AKSEL'RUD: The generalized problem solution on heat and mass transfer in a granular bed	93
N. L. KAFENGAUZ and M. I. FEDOROV: Onset of high-frequency pressure oscillations in case of heat transfer with di-isopropylcyclohexan	99
<i>Shorter Communications</i>	
V. M. BUZNIK, G. A. ARTEMOV, V. N. BANDURA and A. M. FEDOROVSKII: Heat transfer of a plate in the turbulent region with a constant heat flux at the surface and isothermal wall	105
S. N. PEREVEZENTSEV: Axi-symmetric temperature field in a solid circular cylinder	109
I. P. ZHUK, N. V. SELEZNYEV and P. I. KHARITONENKO: On the choice of required thermal resistance of external walls	112
<i>Chronicle</i>	
Projected conferences	114
<i>Reader's Guide</i>	
Contents list of the <i>International Journal of Heat and Mass Transfer</i> , Vol. 9, Nos. 3 and 4 (March and April 1966)	116
Heat and Mass Transfer Bibliography	120

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume XI, No. 2

August, 1966

	<i>Page</i>
E. M. KHABAKHPASHEVA: On hydraulic resistance and heat transfer in viscous turbulent plug flow	143
L. I. ROIZEN, I. N. DUL'KIN and N. I. RAKUSHINA: Heat transfer in a flow round straight transverse fins	148
N. A. SHAKHOVA and V. G. ZHELONKIN: Heat transfer from the wall to the moist fluidized bed	154
S. S. SLOBODYANIKOV, A. D. CHUDAKOV and V. I. PELIPENKO: Electrical simulation of fields moving relative to one another	161
YU. V. VIDIN: Heating of a cylinder with an internal heat source and variable heat-transfer coefficient	166
V. K. SHCHUKIN: Correlation of hydraulic resistance experimental data in tubes with ribbon turbulizers	171
S. P. DETKOV and E. A. LUK'YANETS: Angular coefficients for parts of an infinite cylindrical surface	177
G. D. RABINOVICH: A new method for calculation of convective drying of fine materials	182
R. G. MOKADAM: Thermodynamic analysis of the diffusion coefficient	193
G. N. DUL'NEV, YU. P. ZARICHNYAK, B. L. MURATOVA and Z. V. SIGALOVA: The dependence of granular system contact heat conduction on external loading	202
M. K. MATSKEVICH: On the mechanism of moist powder adhesion to solid surfaces in the presence of a temperature field	207
A. M. GLOBUS and B. M. MOGILEVSKII: On mass transfer between liquid and vapour flows during transpiration	211
N. I. GAMAYUNOV and V. I. SMIRNOV: Study of the radiation-convective drying of capillary-porous bodies by the tracer method	217
M. M. IVASHCHENKO and M. S. ZOLOTOGOROV: On the solution of unsteady heat conduction problems using electrical analogs	224
V. B. RYVKIN and N. G. KONDRASHOV: Application of similar networks to problem solutions involving discontinuities	230
B. A. VASIL'EV: Particular steady-state problems of the heat-conduction theory for wedges at the third-kind boundary condition	235
V. YA. PUPKO: Application of conjugated functions to study of the heat-conduction and heat-transfer processes	242
V. A. DVOINISHNIKOV and A. S. IPPOLITOV: On the mechanism of adhesion of wetted powders to solid surfaces in the presence of a temperature field	250
<i>Shorter Communications</i>	
R. S. KUZNETSKII: On the temperature distribution of centrifuged liquid	258
A. G. TYEMKIN, A. G. GROMYKO and R. V. AMITONOV: Application of the reverse heat-conduction methods to the determination of transient heat-transfer conditions	261
M. D. MIKHAILOV: Transpiration cooling steady-state temperatures	264
V. V. IVANOV and V. V. SALOMATOV: Transient temperature field in solids with variable heat-transfer coefficient	266
<i>Letters to the Editor</i>	
A. G. SHIFEL'BAIN: On the errors in the book "Regular Thermal Regime" by G. M. KONDRAT'EV (GITTL, 1954)	269
<i>Obituary</i> : KIRILL ATANASOV POPOV	270
<i>Chronicle</i>	272

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume XI, No. 3

September, 1966

	<i>Page</i>
V. V. SHAPOVALOV: Heat transfer with incompressible liquid flow in a circular tube with axial heat distribution on a tube surface with boundary conditions of the first and the second kind	283
L. P. BATOV, YA. I. KARKER and M. G. KOGAN: Unsteady-state radiative heat transfer in a system of coaxial cylinders	289
V. P. DUSHCHENKO, I. M. KUCHERUK and P. V. BEREZHNOI and A. F. BULYANDRA: Investigation of exposure fields of some "light" infrared sources	296
D. A. ZAZOVSKY, V. I. MUKOSEI, V. N. SUCHKOV, L. I. KHEYFETS and L. M. YAKIMENKO: Thermal calculation of an electrolyzer cover	301
M. K. KLEINER: A temperature field of infinite hollow cylinders heated asymmetrically with respect to perimeter under general non-uniform boundary conditions	307
B. D. LEVIN and A. N. PLANOVSKY: The study of gas mixing within the space between the plates of the distilling column	315
A. S. GINZBURG and V. P. DUBROVSKY: Investigation of a moisture field of a granular material with drying in a fluidized bed	320
L. I. GEL'MAN and YU. V. SMOLKIN: To the calculation of adiabatic process in real gases	325
M. G. KAGANER and R. I. ZHUKOVA: Determination of thermal resistance of contacts in vacuum between metallic surfaces with different degree of roughness	329
G. S. KIT and YA. S. PODSTRIGACH: Plane temperature field in an infinite body with foreign cylindrical inclusion	388
YU. I. OREKHOV and B. A. KUZ'MENKO: Stability of main harmonics of closed-circuit reactor with respect to xenon oscillations	345
E. M. KRAVCHUK: On some possibilities of measuring thermal properties by means of temperature wave methods	349
V. V. VLASOV and N. N. DOROGOV: On automatic determination of thermal diffusivity of thermal insulators	354
G. I. BOBROVA and G. D. RABINOVICH: Operation of a periodically acting high-efficiency thermal diffusion column with a perforated wall	359
A. S. BOMKO and V. I. ZHIDKO: Solution of a system of heat and mass transfer equations by the straight-line method	362
G. N. DANILOVA: On the influence of a number of acting vapour-formation centers upon heat transfer intensity with pool nucleate boiling	367
V. M. BREITMAN: Generalized simulation and analytical description of metaconstant heat conduction and heat and mass transfer phenomena	371
E. Z. SHULTS and V. V. DIL'MAN: Statistic analysis of models for mixing liquid under different hydrodynamic conditions	378
G. N. DUL'NEV, V. N. CHERKASOV and N. A. YARYSHEV: Temperature regime of a thin plate heated by an impulse localized energy source	382
<i>Shorter Communication</i>	
A. G. GORELIK: Determination of heat-transfer coefficients in a fluidized bed by the method of thermal relaxation of a solid	387
<i>Letters to the Editor</i>	
M. A. GOTOVSKY and E. V. FIRSOVA: Comments to the paper by A. I. MIKHAILOV <i>et al.</i> , J. Engng Phys. Vol. 7, No. 12 (1964)	389
E. K. KALININ and G. A. DREITSER: Reply to the comments	390
Book reviews	392
<i>To the History of Home Science</i>	
L. S. KLYACHKO: The works of N. A. ZVORYKIN	394
<i>Chronicle</i>	395
<i>Reader's Guide</i>	396
