

# HEAT TRANSFER BIBLIOGRAPHY—JAPANESE WORKS

TAKASHI SATO

Department of Mechanical Engineering, Kyoto University, Kyoto, Japan

(Received 7 April 1970)

## APPLICATION AND OUTLOOK

- T. ASANUMA, Recent techniques of flow visualization, *J. Japan Soc. Mech. Engrs* **72** (609), 1370 (1969).
- Y. DOKI, Combination system of turbo- with absorption-refrigerator, *The Thermal Power* **20**(7), 631 (1969).
- T. FUJIMOTO, Rarefied gas dynamics, *J. Japan Soc. Mech. Engrs* **72**(609), 1378 (1969).
- R. IZUMI, H. KOYAMA and H. ARAI, On the heat exchanger with heat storage materials, *Trans. Japan Soc. Mech. Engrs* **35**(276), 1723 (1969).
- T. KOGA, Central heating and cooling with thermal power, *The Thermal Power* **20**(7), 592 (1969).
- T. MIZUSHINA, R. ITO, S. HIRAOKA, A. IBUSUKI and I. SAKAGUCHI, Transport phenomena at the wall of agitating vessels, *J. Chem. Engng Japan (English)* **2**(1), 89 (1969).
- T. MIZUSHINA and H. MIYASHITA, Study on evaporative coolers—Effect of pitch in tube banks on the transfer coefficients of heat, mass and pressure drop of air flow, *Chem. Engng, Japan (Japanese)* **33**(7), 651 (1969).
- M. NAGAI, T. KAWAI and M. HORI, Transient thermal characteristics of  $UO_2$  fuel rods, *J. Nucl. Sci. Tech.* **6**(9), 494 (1969).
- K. NAMATAME, Transient temperature response of an annular flow with step change in heat generating rod, *J. Nucl. Sci. Tech.* **6**(10), 591 (1969).
- H. NISHIMURA and N. KANEKO, Optimum distribution of heat input and removal along the length of distillation column, *Chem. Engng, Japan (Japanese)* **33**(12), 1271 (1969).
- Y. OKAMOTO, Technical problems of fluid mechanics on nuclear reactors, *J. Japan Soc. Mech. Engrs* **72**(609), 1384 (1969).
- M. SHIMIZU and J. SUGIMOTO, Absorption type refrigerator, *The Thermal Power* **20**(7), 622 (1969).
- S. SUGIYAMA, M. HASATANI and K. GOTŌ, The effects of heat transfer resistance at the surface on thermal decomposition of solids, *Chem. Engng, Japan (Japanese)* **33**(12), 1276 (1969).
- Y. TAKEDA, K. HOTA and K. IINOYA, Fluid mixing of the shell side stream in multitube heat exchanger, *Chem. Engng, Japan (Japanese)* **33**(10), 981 (1969).
- I. TANISHITA, Thermodynamical consideration on power generation with steam supply, *The Thermal Power* **20**(7), 575 (1969).
- H. TASHIRO, A consideration on measurement of small flow rate at thermal power plant, *The Thermal Power* **20**(9), 796 (1969).

- H. YAMADA, Turbo-airconditioning machines, *The Thermal Power* **20**(7), 607 (1969).

## CHANGE OF PHASE

- K. AKAGAWA, K. SEKOGUCHI, T. SAKAGUCHI and T. KOBAYASHI, Nondimensional expression for the relation between pressure drop and flow rate in steam generation tubes, *Trans. Japan Soc. Mech. Engrs* **35**(276), 1714 (1969).
- K. AKAGAWA and T. SAKAGUCHI, Frictional pressure drop in steam generating tubes (1st Report, Static characteristics of frictional pressure drop), *Trans. Japan Soc. Mech. Engrs* **35**(279), 2278 (1969).
- S. ISHIGAI, T. TAKAGI, S. ITIYAMA and M. KAJI, Boiling critical heat flux in the horizontal ducts (1st Report, Critical heat flux when the top or the bottom of the ducts is heated separately), *Trans. Japan Soc. Mech. Engrs* **35**(278), 2107 (1969).
- S. ISHIGAI, T. TAKAGI and S. ITIYAMA, Boiling critical heat flux in horizontal ducts (2nd Report, Dryout due to phase separation in circular tubes), *Trans. Japan Soc. Mech. Engrs* **35**(280), 2395 (1969).
- K. KATAYAMA and Y. HAYASHI, Researches on sublimation of ice (2nd Report), *Trans. Japan Soc. Mech. Engrs* **35**(276), 1706 (1969).
- K. KOBAYASHI, Y. IIDA and N. KANEGAE, Distributions of local void fraction of air-water two phase flow in a vertical channel, *Trans. Japan Soc. Mech. Engrs* **35**(280), 2365 (1969).
- K. SEKOGUCHI, Y. SATŌ and A. KARIYASAKI, Horizontal two-phase air-water flow characteristics in the disturbed regions due to 90-degree bend, *Trans. Japan Soc. Mech. Engrs* **35**(279), 2227 (1969).
- K. SEKOGUCHI, Y. SATŌ and A. KARIYASAKI, On the disturbed flow regions in horizontal two-phase air-water flow (The influences of mixers and tube exits), *Trans. Japan Soc. Mech. Engrs* **35**(279), 2234 (1969).
- K. TORIKAI and M. AKIYAMA, Analysis of the 2nd burnout, *Trans. Japan Soc. Mech. Engrs* **35**(279), 2273 (1969).

## CONVECTIVE HEAT TRANSFER

- T. FUJII, M. TAKEUCHI, H. UEHARA and H. IMURA, Experiments on natural-convection heat transfer from the outer surface of a vertical cylinder to liquids (1st Report, Non-dimensional expressions of heat-transfer coefficients

- by the physical properties at a reference temperature), *Trans. Japan Soc. Mech. Engrs* **35**(280), 2381 (1969).
- T. FUJII, M. TAKEUCHI and M. FUJII, Experiments on natural-convection heat transfer from the outer surface of a vertical cylinder to liquids (2nd Report, Non-dimensional expressions of heat-transfer coefficients where only the variation of viscosity is considered), *Trans. Japan Soc. Mech. Engrs* **35**(280), 2390 (1969).
- Y. FUJITA and S. HASEGAWA, Experimental study of forced convective heat transfer in annular passage with axially varying cross sectional area, *Trans. Japan Soc. Mech. Engrs* **35**(277), 1920 (1969).
- Y. FUJITA and S. HASEGAWA, Fundamental solutions in turbulent heat transfer in a tube, *Mem. Fac. Engng Kyushu Univ.* **29**(1), 65 (1969).
- K. KATAYAMA and H. NAKAGAWA, Simultaneous flow of heat and fluid through porous media (1st Report, Fundamental theory), *Trans. Japan Soc. Mech. Engrs* **35**(280), 2373 (1969).
- I. MICHIOYOSHI and Y. KIKUCHI, Buoyancy effect on forced convection flow and heat transfer, *Mem. Fac. Engng Kyoto Univ.* **31**(3), 363 (1969).
- N. MITSUISHI, O. MIYATAKE and H. UCHIDA, Laminar flow heat transfer to non-Newtonian fluids in vertical tubes with constant wall temperature, *Chem. Engng. Japan (Japanese)* **33**(7), 655 (1969).
- N. MITSUISHI, O. MIYATAKE, and M. TANAKA, Heat transfer in laminar flow in vertical concentric annuli, *J. Chem. Engng Japan (English)* **2**(2), 153 (1969).
- K. SANOKAWA, Heat transfer in liquid metals, *J. Japan Soc. Mech. Engrs* **72**(606), 885 (1969).
- T. TSUBOUCHI and H. MASUDA, Natural convection heat transfer from horizontal finned circular cylinder, *Rep. Inst. High Speed Mech., Tohoku Univ.* **20**, 57 (1968/1969).
- S. WATANABE and S. KOTAKE, Flow and heat transfer of non-Newtonian fluids on a flat plate, *Trans. Japan Soc. Mech. Engrs* **35**(279), 2266 (1969).
- R. TOEI, M. OZAKI, A. URAGAMI and Y. TAKAKI, Mass transfer through rarefied gas between concentric spheres, *J. Chem. Engng Japan (English)* **1**(2), 125 (1968).

#### MEASURING METHOD AND INSTRUMENT

- Y. KITAYAMA and K. KAWABATA, Measurement of void fraction by parallel type probe, *J. Atom. Energy Soc. Japan* **11**(11), 676 (1969).
- K. KOBAYASI and A. KUDO, Study on permanent-magnet flowmeter for liquid sodium, (I) Theoretical investigation of end effect of magnetic field, *J. Atom. Energy Soc. Japan* **11**(11), 669 (1969).
- K. KOBAYASI, A. KUDO, K. FURUKAWA, I. NIHEI and K. YAMAMOTO, Study on permanent-magnet flowmeter for liquid sodium, (II) Experiment, *J. Atom. Energy Soc. Japan* **11**(12), 716 (1969).
- T. KUMADA and K. KOBAYASI, A transient heating method for measuring thermal diffusivity of a solid disk with thermal radiation losses from all faces, (I) Step-wise heating, *J. Atom. Energy Soc. Japan* **11**(8), 462 (1969).
- T. KUMADA and K. KOBAYASI, A transient heating method for measuring thermal diffusivity of a solid disk with thermal radiation losses from all faces, (II) Periodic heating, *J. Atom. Energy Soc. Japan* **11**(11), 664 (1969).
- M. SERIZAWA, H. KANEKO and M. KOIZUMI, Thermal diffusivity measurement of hypostoichiometric  $\text{UO}_2$  by an electron beam technique, *J. Nucl. Sci. Tech.* **6**(8), 419 (1969).
- N. YAMAKAWA, N. TAKAHASHI and S. OHTANI, On the measurement of the surface temperature under the frosting condition, *Chem. Engng. Japan (Japanese)* **33**(7), 699 (1969).

#### RADIATION HEAT TRANSFER

- Y. KUROSAKI, Heat transfer by radiation and other transport mechanisms (2nd Report, Flow between parallel flat plates with simultaneous radiation and convection), *Trans. Japan Soc. Mech. Engrs* **35**(278), 2099 (1969).

#### MASS TRANSFER

- M. HIRAOKA and K. TANAKA, Analysis of simultaneous heat and mass transfer with chemical reaction, *J. Chem. Engng Japan (English)* **2**(1), 37 (1969)
