

ANNOUNCEMENTS

1974 SEMINAR ON HEAT AND MASS TRANSFER IN THE ENVIRONMENT OF VEGETATION

Dubrovnik, 26–30 August 1974

The International Centre for Heat and Mass Transfer announces a change in the location of the 1974 Seminar on Heat and Mass Transfer in the Environment of Vegetation. The Seminar will be held at the Hotel Dubrovnik Palace, Dubrovnik, Yugoslavia, from 26–30 August 1974.

Heat and mass transfer are central to the problems of plant productivity and conservation, of soil management and of pollution as it affects soil, ground, water and vegetation. These matters will be treated in the Seminar, including observation methods and the bioengineering of plant growth and productivity.

This Seminar presents a unique opportunity for cross-disciplinary communication between heat- and mass-transfer specialists and workers in soil physics, micrometeorology, crop physiology, hydrology and physical ecology.

The Seminar Committee includes D. A. de Vries, The Netherlands, Chairman; W. R. Gardner, U.S.A.; S. V. Nerpin, U.S.S.R.; J. R. Philip, Australia as Vice-Chairman; J. A. Businger, U.S.A.; D. E. Elrick, Canada; F. Kreith, U.S.A.; J. L. Monteith, U.K.; A. Perrier, France as members. Fifteen invited lecturers and 36 short communications have been scheduled.

Further information can be obtained by writing to Professor de Vries, Eindhoven University of Technology, Eindhoven, The Netherlands or to Professor Gardner, Department of Soil Science, University of Wisconsin, Madison, Wisconsin 53706.

1975 SUMMER SCHOOL AND SEMINAR ON ALTERNATIVE ENERGY SOURCES—HEAT AND MASS TRANSFER PROBLEMS

Tentative Dates: 18–23 and 25–30 August 1975

The International Centre for Heat and Mass Transfer announces the 1975 Summer School and Seminar. These two sessions will be devoted to Alternative Energy Sources—Heat and Mass Transfer Problems.

Professor James P. Hartnett, Director of the Energy Resources Center of the University of Illinois at Chicago Circle, is Director of the Summer School. Professor Jesse Denton, Director of the National Center for Energy Management and Power, University of Pennsylvania, is Chairman of the Seminar Committee. Professor M. A. Styrikovich of the U.S.S.R. and Professor R. Gibrat of France are co-Chairmen.
