

## HEAT TRANSFER BIBLIOGRAPHY— JAPANESE WORKS

YASUO MORI

Department of Physical Engineering, Tokyo Institute of Technology,  
Tokyo, Japan

### APPLICATION AND OUTLOOK

- I. Aya, H. Nariai and M. Kobayashi, Pressure and fluid oscillations in vent system due to steam condensation, (I) Experimental results and analysis model for chugging, *J. nucl. Sci. Tech. (English)* 17(7), 499 (1980).
- T. Fujii, H. Honda and S. Nozu, Thermal design of tube-in-tube condenser—effect of condensation heat transfer coefficient, *Refrigeration* 56(640), 91 (1981).
- T. Hashizume, T. Machiyama and S. Kawai, Some notes on the response characteristics of heat exchanger (1. On the water heater of L.B.M. turbine system), *Bull. Sci. Engng Res. Lab. Waseda Univ.* 91, 1 (1980).
- T. Hashizume, T. Machiyama and S. Kawai, Notes on the response characteristics estimations of heat exchanger in the L.B.M. turbine system (1. On the characteristics of water estimations), *Bull. Sci. Engng Res. Lab. Waseda Univ.* 91, 153 (1980).
- T. Hashizume, Y. Terashima, S. Kawai and T. Machiyama, Some experimental investigations on the dynamic performance of evaporator in the L.B.M. turbine system (2), *Bull. Sci. Engng Res. Lab. Waseda Univ.* 92, 1 (1980).
- T. Hashizume, Y. Terashima, S. Kawai and T. Machiyama, Some experimental investigations on the dynamic performance of evaporator in the L.B.M. turbine system (3), *Bull. Sci. Engng Res. Lab. Waseda Univ.* 92, 8 (1980).
- T. Hashizume, Y. Terashima, S. Kawai and T. Machiyama, Some experimental investigations on the dynamic performance of evaporator in the L.B.M. turbine system (4), *Bull. Sci. Engng Res. Lab. Waseda Univ.* 92, 14 (1980).
- T. Hashizume, Y. Terashima, S. Kawai and T. Machiyama, Some experimental investigations on the dynamic performance of evaporator in the L.B.M. turbine system (5), *Bull. Sci. Engng Res. Lab. Waseda Univ.* 92, 18 (1980).
- T. Hashizume, Y. Terashima, S. Kawai and T. Machiyama, Some Notes on the response characteristics of heat exchanger (2. On the evaporator of L.B.M. turbine system), *Bull. Sci. Engng Res. Lab. Waseda Univ.* 92, 27 (1980).
- T. Hashizume, Y. Terashima, S. Kawai and T. Machiyama, Notes on the response characteristics estimations of heat exchanger in the L.B.M. turbine system (2. On the characteristics of L.B.M. evaporators), *Bull. Sci. Engng Res. Lab. Waseda Univ.* 92, 103 (1980).
- Y. Hashizume, Y. Terashima, S. Kawai and T. Machiyama, Experimental notes on the performance of L.B.M. evaporator in which the medium is supplied with lower temperature than its saturated state for the vapor pressure, *Bull. Sci. Engng Res. Lab. Waseda Univ.* 92, 107 (1980).
- T. Hashizume, Y. Terashima, S. Kawai and T. Machiyama, Some experimental investigations of the dynamic performance of evaporator in the L.B.M. turbine system (6), *Bull. Sci. Engng Res. Lab. Waseda Univ.* 93, 1 (1980).
- H. Hotta and M. Goto, Effect of the operating condition on the pressure of the shell and tube type refrigerator condenser, *Refrigeration* 55(631), 393 (1980).
