

## ERRATUM

Q. Yu, M. Makhlof and D. Apelian, Effect of stress acting upon the solid network in the two-phase zone during solidification, *Int. J. Heat Mass Transfer* **38**, 31–38 (1995).

The publishers regret that the velocities  $V$ ,  $V_L$  and  $V_S$  were set incorrectly in the above paper. They are vectors and should, therefore, have been set in bold type.
