

(Continued from inside back cover)

- | | | |
|------------------------------------------------------------------|------|--------------------------------------------------------------------------------------------------------------------------|
| O. WEIN, V. V. TOVCIGRECKO and V. SOBOLIK | 4596 | Transient convective diffusion to a circular sink at finite Peclet number |
| A. KUMAR DE and A. DALAL | 4608 | A numerical study of natural convection around a square, horizontal, heated cylinder placed in an enclosure |
| A. NARASIMHAN and S. KARRA | 4624 | An inverse heat transfer method to provide near-isothermal surface for disc heaters used in microlithography |
| K. ARUL PRAKASH, G. BISWAS and B. V. RATHISH KUMAR | 4633 | Thermal hydraulics of the spallation target module of an accelerator driven sub-critical system: A numerical study |
| D. B. R. KENNING, D. S. WEN, K. S. DAS and S. K. WILSON | 4653 | Confined growth of a vapour bubble in a capillary tube at initially uniform superheat: Experiments and modelling |
| H. LIU, C. ZOU, B. SHI, Z. TIAN, L. ZHANG and C. ZHENG | 4672 | Thermal lattice-BGK model based on large-eddy simulation of turbulent natural convection due to internal heat generation |
| K. MERRILL, M. BEAUCHESNE, J. PREVITE, J. PAULLET and P. WEIDMAN | 4681 | Final steady flow near a stagnation point on a vertical surface in a porous medium |
| H. LUZ NETO, J. N. N. QUARESMA and R. M. COTTA | 4687 | Integral transform solution for natural convection in three-dimensional porous cavities: Aspect ratio effects |
