

(Continued from inside back cover)

- |   |      |   |
|---|------|---|
| B. USOWICZ, J. LIPIEC and A. FERRERO  | 5010 | Prediction of soil thermal conductivity based on penetration resistance and water content or air-filled porosity                  |
| A. BANI KANANEH, M. H. RAUSCH,<br>A. P. FRÖBA and A. LEIPERTZ                             | 5018 | Experimental study of dropwise condensation on plasma-ion implanted stainless steel tubes   |
| P. K. SARMA, V. SRINIVAS, K. V. SHARMA,<br>V. D. RAO, T. SUBRAMANYAM and<br>A. E. BERGLES | 5027 | Performance study of an evaporator tube working under high heat fluxes  |
| H. ISHIDA, S. KAWASE and H. KIMOTO  | 5035 | The second largest Lyapunov exponent and transition to chaos of natural convection in a rectangular cavity                        |
| A. SCHAGEN, M. MODIGELL, G. DIETZE and<br>R. KNEER  | 5049 | Simultaneous measurement of local film thickness and temperature distribution in wavy liquid films using a luminescence technique |
| N. N. GNESDILOV, K. V. DOBREGO,<br>I. M. KOZLOV and E. S. SHMELEV                         | 5062 | Numerical study and optimization of the porous media VOC oxidizer with electric heating elements                                  |
| <i>Technical Notes</i>  |      |   |
| H. KIM, J. KIM and M. H. KIM  | 5070 | Effect of nanoparticles on CHF enhancement in pool boiling of nano-fluids   |
| B. RANGANATH and T. ECHEKKI   | 5075 | On the role of heat and mass transport during the mutual annihilation of two premixed propane–air flames                          |
| S. Y. BYUN, S. T. RO, J. Y. SHIN, Y. S. SON<br>and D.-Y. LEE                              | 5081 | Transient thermal behavior of porous media under oscillating flow condition   |
| I   |      | Volume Contents and Author Index for Volume 49, 2006  |
