The publisher regrets that in the above-mentioned paper, an error was introduced into Eq. (51). The correct sign after γ^2 is + and not –. The corrected equation is reproduced below.

$$\lambda_0 = \frac{32(\gamma - 1)^2 \ln \gamma}{1 - \gamma^2 + (1 + \gamma^2) \ln \gamma}, \quad (51)$$

The publisher apologizes for any inconvenience.
