

LIST OF CONTENTS

NUMBER 1

- G. B. Wallis, A. S. Karlin, C. R. Clark, III, D. Bharathan, Y. Hagi and H. J. Richter** 1 Countercurrent gas-liquid flow in parallel vertical tubes
- M. Akai, A. Inoue and S. Aoki** 21 The prediction of stratified two-phase flow with a two-equation model of turbulence
- A. Miyamura, S. Iwasaki and T. Ishii** 41 Experimental wall correction factors of single solid spheres in triangular and square cylinders, and parallel plates
- Kurt M. Becker, Adam Letzter, Olov Nylund and Bertil Schölin** 47 An experimental study of the effect of the axial heat flux distribution on the dryout conditions in a 3650-mm long annulus
- V. E. Nakoryakov, O. N. Kashinsky, A. P. Burdukov and V. P. Odnoral** 63 Local characteristics of upward gas-liquid flows
- Paul C.-H. Chan and L. G. Leal** 83 An experimental study of drop migration in shear flow between concentric cylinders
- Avram Bar-Cohen, L. R. Glicksman and R. W. Hughes** 101 Semi-empirical prediction of bubble diameter in gas fluidized beds
- S. P. Kalra and Y. Zvirin** 115 Shock wave-induced bubble motion
- 128 *Announcement—Call for Papers*
1981 Symposium on Instrumentation and Control for Fossil Energy Processes, San Francisco, California, 8-10 June 1981

NUMBER 2

- H. C. Simpson, D. H. Rooney and M. Megahed** 129 The upward flow of air between two waterfalls: an unusual choked flow problem
- Y. Tomita, T. Jotaki and H. Hayashi** 151 Wavelike motion of particulate slugs in a horizontal pneumatic pipeline
- Y. Sato, M. Sadatomi and K. Sekoguchi** 167 Momentum and heat transfer in two-phase bubble flow—I. Theory
- Y. Sato, M. Sadatomi and K. Sekoguchi** 179 Momentum and heat transfer in two-phase bubble flow—II. A comparison between experimental data and theoretical calculations
- N. T. Thang and M. R. Davis** 191 Pressure distribution in bubbly flow through venturis
- W. R. Martindale and R. V. Smith** 211 Two-phase two-component interface drag coefficients in separated phase flows

- P. Brunn** 221 The hydrodynamic wall effect for a disperse system
- P. S. Andersen and J. Würtz** 235 Adiabatic steam–water annular flow in an annular geometry
- Letter to the Editor*
- P. B. Whalley and P. Hutchinson** 241 Comments on “Adiabatic steam–water annular flow in an annular geometry” by P. S. Andersen and J. Würtz

NUMBER 3

- R. Shail and D. K. Gooden** 245 The slow rotation of an axisymmetric solid submerged in a fluid with a surfactant surface layer—II. The rotating solid in a bounded fluid
- Z. Zapryanov and E. Chervenivanova** 261 The flow field induced by the torsional oscillations of a spherical cell containing a fluid drop
- J. Weisman and S. Y. Kang** 271 Flow pattern transitions in vertical and upwardly inclined lines
- S. C. Low and P. C. Baruah** 293 Liquid fuel droplets entrained in the transient unidimensional gas flow in a pipe
- D. L. Nguyen, E. R. F. Winter and M. Greiner** 311 Sonic velocity in two-phase systems
- Z. Nejat** 321 Effect of density ratio on critical heat flux in closed end vertical tubes
- J. N. Chung and P. S. Ayyaswamy** 329 Material removal associated with condensation on a droplet in motion
- J. A. R. Henry** 343 Dividing annular flow in a horizontal tee

Announcements

- 357 Short Courses, The University of Calgary, April/May 1981
- 358 Two Phase Flow in Equipment, Stanford University, 10–14 August 1981
- 361 Measurements in Polyphase Flows, ASME Spring Meeting, St. Louis, 7–11 June 1982

NUMBER 4

- Wei-Kuo Lee and Raymond W. Flumerfelt** 363 Instability of stationary and uniformly moving cylindrical fluid bodies—I. Newtonian systems
- Wei-Kuo Lee, Kuo-Liang Yu and Raymond W. Flumerfelt** 385 Instability of stationary and uniformly moving cylindrical fluid bodies—II. Viscoelastic threads and experimental observations

- E. N. Ganić and K. Mastanaiah** 401 Investigation of droplet deposition from a turbulent gas stream
- D. R. H. Beattie and K. R. Lawther** 423 Two-phase hydrodynamic experiments with axial flow through seven-rod clusters
- W. W. Martin, A. H. Adbelmessih, J. J. Liska and F. Durst** 439 Characteristics of laser-Doppler signals from bubbles
- R. van der Welle** 461 Turbulence viscosity in vertical adiabatic gas-liquid flow

Announcements

- 475 Two Phase Flow in Equipment, Stanford University, 10–14 August 1981
- 477 Nineteenth Annual Meeting of the Society of Engineering Science, University of Missouri-Rolla, Rolla, Missouri, U.S.A., 27–29 October 1982

NUMBER 5

- S. H. Smith** 479 The influence of rotation in slow viscous flows
- D. Barthes-Biesel and V. Chhim** 493 The constitutive equation of a dilute suspension of spherical microcapsules
- D. R. Webb and R. G. Sardesai** 507 Verification of multicomponent mass transfer models for condensation inside a vertical tube
- K. H. Sun, R. B. Duffey and C. M. Peng** 521 The prediction of two-phase mixture level and hydrodynamically-controlled dryout under low flow conditions
- A. K. M. A. Quader and W. L. Wilkinson** 545 Turbulent heat transfer to dilute aqueous suspensions of titanium dioxide in pipes

Brief Communication

- Roland Clift and Diana H. Manning Clift** 555 Continuous measurement of the density of flowing slurries

NUMBER 6

- Anjani K. Didwania and G. M. Homsy** 563 Flow regimes and flow transitions in liquid fluidized beds
- N. Shankar, Robert Cole and R. Shankar Subramanian** 581 Thermocapillary migration of a fluid droplet inside a drop in a space laboratory
- Flavio Dobran** 595 Analysis of two-phase flow magneto hydrodynamic generator performance in terms of flow and electrical conductivity distribution parameters

Ulrich Schumann	619	Virtual density and speed of sound in a fluid–solid mixture with periodic structure
Enrico Lorenzini	635	A simplified method proposal for practical determination of a periodic two-phase flow instability
Horst J. Richter	647	Flooding in tubes and annuli
J. J. J. Chen and P. L. Spedding	659	An extension of the Lockhart–Martinelli theory of two phase pressure drop and holdup
J. C. M. Leung, K. A. Gallivan, R. E. Henry and S. G. Bankoff	677	Critical heat flux predictions during blowdown transients
		<i>Brief Communications</i>
Y. Lerner, A. Sonn and R. Letan	703	Studies in bubble evaporation by stroboscopic photography
R. M. Thomas	709	Bubble coalescence in turbulent flows
J. J. L. Higdon and M. Kojima	719	On the calculation of Stokes' flow past porous particles
P. L. Spedding and J. J. J. Chen	729	A simplified method of determining flow pattern transition of two-phase flow in a horizontal pipe
		<i>Announcement</i>
	733	International Symposium on Applications of Laser-Doppler Anemometry to Fluid Mechanics
