

## NEW PATENTS

This Section contains abstracts and, where appropriate, illustrations of recently issued United States patents and Patent Cooperation Treaty patent applications published by the World Intellectual Property Organization. This information was obtained from recent additions to the Pergamon PATSEARCH™ on-line data base in accordance with interest profiles developed by the Editors.

### Invitation to Readers

Readers' comments on the value of this section and suggestions for changes and improvements are invited and should be sent to the Patent Section Editor at either Pergamon Press, Inc. or Pergamon Press Ltd. at the address below.

### PATSEARCH™ and VIDEO PATSEARCH™

The Pergamon International PATSEARCH™ data base, covering U.S. patents published from 1971 to date and all PCT Applications, provides fast, low cost on-line searching. Subject matter searches of the data base can be made inexpensively from your own computer terminal. The PATSEARCH™ is made available through the computer service of Pergamon InfoLine in London. On-line searching of this data base costs only \$80 (£35) per hour. A typical patent search can be made in less than 1/4 hour. Search bureau service is also available at \$60 per search from Pergamon International Information Corporation.

VIDEO PATSEARCH™ is the revolutionary in-house patent search service that combines on-line searching with videodisc display of drawings and chemical structures. This unique new system permits the rapid scanning of drawings and chemical structures in conjunction with the on-line search of the patent text. Write for complete information.

### Complete Patent Text Available in 24 Hours

Copies of complete patents announced in this Section are available from Pergamon International Information Corporation for \$7 per copy. Payment with order is required. Orders outside North America add \$2 for air postage. Order by patent number from Pergamon International only.

US 4303023.

### FLUIDIZED BED FUEL BURNING.

Stephen P. Perkins, Alex F. Wormser, Rowley MA. assigned to Wormser Engineering, Inc.

A process for desulfurizing fuel wherein a fuel is introduced and burned in a first fluidized bed and wherein a second fluidized bed is utilized to treat the products of combustion from the first fluidized bed.

US 4304529.

### APPARATUS AND METHOD FOR DELIVERING AND METERING FLUIDS.

Horst Gerich, Los Angeles CA 90065.
