

ANNOUNCEMENTS

WORKSHOP ON COMPUTATION AND MODELLING OF MULTIPHASE FLOWS

A 5-Day Workshop

9-13 January 1995

Department of Chemical and Nuclear Engineering,
University of California, Santa Barbara, U.S.A.

Part I: One-dimensional models and computation

Part II: Multidimensional models and computation

The intention of this course is to provide:

- A condensed and critical view of present knowledge including areas of uncertainty
- Transfer of knowledge from one area of application to another
- Systematic consideration of competing approaches
- Modelling of turbulence in multiphase systems
- Limitations of modern codes

The course features:

- A program of coordinated lectures by experts in the field
- A complete set of lecture notes and copies of slides
- Movies to illustrate physical phenomena
- Limited enrollment

Lecturers: S. Banerjee, G. Hetsroni, G. F. Hewitt, L. G. Leal, S. Orszag and G. Yadigaroglu

Registration information:

Registration is requested by 1 December 1994. To request space after this date call (805) 893-8692.

Workshop fees:

The basic registration fees are \$2000(U.S.) and include 5 nights at the Four Seasons Biltmore, lecture notes, copies of all slide notes and a reception. The lectures will be conducted at the Four Seasons Biltmore. Registration for either Part I or Part II is possible and includes 3 nights at the Four Seasons Biltmore.

Hotel information:

Participants will stay at the Four Seasons Biltmore. This is one of the premier hotels in the world. A very special room rate has been made available for this workshop by including it in the registration fee. The room rate is for single or double occupancy.
