In the above mentioned article, there are errors in the printed form of Equation (65). It should be replaced by

$$\frac{d\bar{\theta}}{dt} = \frac{\partial\bar{\theta}}{\partial t} + \bar{u}_{i,j} \frac{\partial\bar{\theta}}{\partial x_j} = \frac{\dot{M}}{\rho_l} + (1 - \bar{\theta}) \frac{\partial\bar{u}_{i,j}}{\partial x_j}$$

Another acceptable form of the equation is given as Equation (5.4) by Sirignano (1999).
