

Important Announcement

Because of the rapidly increasing flow of high-quality articles from research workers throughout the world, the *International Journal of Theoretical Physics* will be expanded during 1972. In addition to publishing the previously announced Volume 5, the journal will now publish Volume 6 in six issues before the end of 1972. For those who have ordered only Volume 5, it will be necessary to send in an order for Volume 6 also. For those who have not yet ordered a subscription to the journal for 1972, the order should be for Volumes 5 and 6, each volume of six issues.
