

Publications of S. Bugajski

1. Bugajski, S. and Bugajska, K. (1972). On the axioms of quantum mechanics. *Bulletin de l'Académie Polonaise des Sciences Série des Sciences Mathématiques. Astronomiques et Physiques* **20**, 231–234.
2. Bugajski, S. and Bugajska, K. (1972). Hidden variables and 2-dimensional Hilbert space, *Annales de l'Institut Henri Poincaré. Section A: Physique Théorique* **16**, 93–102.
3. Bugajski, S. and Bugajska, K. (1973). Description of physical systems, *Reports on Mathematical Physics* **4**, 1–20.
4. Bugajski, S. and Bugajska, K. (1973). The projection postulate in quantum logic, *Bulletin de l'Académie Polonaise des Sciences. Série des Sciences Mathématiques. Astronomiques et Physiques*. **21**, 873–877.
5. Bugajski, S. and Bugajska, K. (1973). The lattice structure of quantum logic, *Annales de l'Institut Henri Poincaré. Section A: Physique Théorique* **19**, 333–340.
6. Bugajski, S. (1978). A remark on joint probability distributions for quantum observables, *Zeitschrift für Naturforschung* **33a**, 1383–1385.
7. Bugajski, S. (1978). Probability implication in the logics of classical and quantum mechanics, *Journal of Philosophical Logic* **7**, 95–106.
8. Bugajski, S. (1979). Measures on operational logics, *Zeitschrift für Naturforschung* **34a**, 785–786.
9. Bugajski, S. and Lahti, P. J. (1980). Fundamental principles of quantum theory, *International Journal of Theoretical Physics* **19**, 499–514.
10. Bugajski, S. (1980). Only if “acrobatic logic” is non-Boolean. In *Philosophy of Science Association Meeting, Vol. 1*, P. Asquith and R. Giere, eds., pp. 264–271.
11. Bugajski, S. and Motyka, Z. (1981). Generalized Borel law and quantum probabilities, *International Journal of Theoretical Physics* **20**, 263–268.
12. Bugajski, S. (1981). The inner language of operational quantum mechanics. In *Current Issues of Quantum Logic*, E. G. Beltrametti and B. C. van Fraassen, eds., Plenum, New York, pp. 283–299.
13. Bugajski, S. (1983). Identyczność i paraczastki w mechanice kwantowej. In *Metody Teorii Grup w Fizyce, Vol. 531*, A. Pawlikowski, ed., Uniwersytetu Śląskiego, pp. 54–68.
14. Bugajski, S. (1982). What is quantum logic?, *Studia Logica* **41**, 311–316.
15. Bugajski, S. (1983.) Semantics in Banach spaces, *Studia Logica* **42**, 81–88.
16. Bugajski, S. (1983). Languages of similarity, *Journal of Philosophical Logic* **12**, 1–18.
17. Bugajski, S. and Lahti, P. J. (1985). Fundamental principles of quantum mechanics II: From a convexity scheme to the DHB theory, *International Journal of Theoretical Physics* **24**, 1051–1080.
18. Bugajski, S. (1987). Struktury logiczne w teoriach fizycznych, *Zagadnienia Naukoznawstwa* **91–92**, 375–384.
19. Bugajski, S. (1991). Nonlinear quantum mechanics is a classical theory, *International Journal of Theoretical Physics* **30**, 961–971.
20. Bugajski, S. (1993). Delinearization of quantum logic, *International Journal of Theoretical Physics* **32**, 389–398.

21. Bugajski, S. (1993). Classical frames for a quantum theory—A bird's-eye view, *International Journal of Theoretical Physics* **32**, 969–977.
22. Bugajski, S. and Beltrametti, E. G. (1993). Decomposability of mixed states into pure states and related properties, *International Journal of Theoretical Physics* **32**, 2235–2244.
23. Bugajski, S. (1993). On classical representations of convex descriptions, *Zeitschrift für Naturforschung* **48a**, 469–470.
24. Bugajski, S. (1993). Entropy and delinearization. In *Symposium on the Foundations of Modern Physics 1993: Quantum Measurement, Irreversibility and the Physics of Information*, P. Busch, P. Lahti, and P. Mittelstaedt, eds., World Scientific, Singapore, pp. 137–144.
25. Bugajski, S. (1994). Topologies on pure quantum states, *Physics Letters A* **190**, 5–8.
26. Bugajski, S. (1994). Full families of states and functional representations of observables, *Reports on Mathematical Physics* **34**, 235–240.
27. Bugajski, S. and Beltrametti, E. G. (1995). Quantum observables in classical frameworks, *International Journal of Theoretical Physics* **34**, 1221–1229.
28. Bugajski, S. (1995). Classical and quantum in one, or how to describe mesoscopic systems, *Molecular Physics Reports* **11**, 161–171.
29. Bugajski, S. and Beltrametti, E. G. (1995). A classical extension of quantum mechanics, *Journal of Physics A: Mathematical and General* **28**, 3329–3343.
30. Bugajski, S. (1995). Fuzzy dynamical systems, fuzzy random fields, *Reports on Mathematical Physics* **36**, 263–274.
31. Bugajski, S. and Beltrametti, E. G. (1996). The Bell phenomenon in classical frameworks, *Journal of Physics A: Mathematical and General* **29**, 247–261.
32. Bugajski, S. (1996). Fundamentals of fuzzy probability theory, *International Journal of Theoretical Physics* **35**, 2224–2244.
33. Bugajski, S. and Beltrametti, E. G. (1997). Effect algebras and statistical physical theories, *Journal of Mathematical Physics* **38**, 3020–3030.
34. Bugajski, S. (1997). Fuzzy dynamics in terms of fuzzy probability theory. In *IFSA '97 Prague: Seventh International Fuzzy Systems Association World Congress, Vol. IV*, M. Mares, R. Mesiar, V. Novak, J. Ramik, and A. Stupnanova, eds., Academia, Prague, pp. 255–260.
35. Bugajski, S., Hellwig, K. E., and Stulpe, W. (1998). On fuzzy random variables and statistical maps, *Reports on Mathematical Physics* **41**, 1–11.
36. Bugajski, S. (1998). Fuzzy stochastic processes, *Open Systems and Information Dynamics* **5**, 169–185.
37. Bugajski, S. (1998). Net entropies of fuzzy stochastic processes, *Open Systems and Information Dynamics* **5**, 187–200.
38. Bugajski, S. and Beltrametti, E. G. (1998). Classical extensions of operational statistical theories. In *Waves, Information and Foundations of Physics*, R. Pratesi and L. Ronchi, eds., Italian Physical Society, Bologna, pp. 333–343.
39. Bugajski, S., Gudder, S., Pulmannova, S., and Beltrametti, E. G. (1999). Convex and linear effect algebras, *Reports on Mathematical Physics* **44**, 359–379.
40. Bugajski, S., Beltrametti, E. G., and Varadarajan, V. S. (2000). Extensions of convexity models, *Journal of Mathematical Physics* **41**, 2500–2514.
41. Bugajski, S. and Beltrametti, E. G. (2000). On the relationship between classical and quantum mechanics. In *The Reality of the Unobservable*, E. Agazzi and M. Pauri, eds., Kluwer Academic Publishers, Dordrecht, pp. 353–359.
42. Bugajski, S. and Beltrametti, E. G. (2000). Remarks on two-slit probabilities, *Foundations of Physics* **30**, 1415–1429.
43. Bugajski, S., Gudder, S., and Pulmannova, S. (2000). Convex effect algebras, state ordered effect algebras, and ordered linear spaces, *Reports on Mathematical Physics* **45**, 371–388.
44. Bugajski, S. (2001). Statistical maps. I. Basic properties, *Mathematica Slovaca* **51**, 321–342.

45. Bugajski, S. (2001). Statistical maps. II. Operational random variables and the Bell phenomenon, *Mathematica Slovaca* **51**, 343–361.
46. Bugajski, S. and Beltrametti, E. G. (2001). Quantum mechanics and operational probability theory, *Foundations of Science* **7**, 197–212.
47. Bugajski, S., Klamka, J., and Wegrzyn, S. (2001). Foundations of quantum computing. Part I, *Archiwum Informatyki Teoretycznej i Stosowanej* **13**, 97–142.
48. Bugajski, S. (2001). Quantum search, *Archiwum Informatyki Teoretycznej i Stosowanej* **13**, 143–150.
49. Bugajski, S., Klamka, J., and Wegrzyn, S. (2002). Foundations of quantum computing. Part II, *Archiwum Informatyki Teoretycznej i Stosowanej* **14**, 93–106.
50. Bugajski, S., Miszczak, J., and Motyka, Z. (2002). Symulacje optyczne obliczen kwantowych. *Studia Informatica* **23**, 67–75.
51. Bugajski, S. and Gibas, M. (2002). Magnetyczny rezonans jadowy w obliczeniach kwantowych. *Studia Informatica* **23**, 77–94.
52. Bugajski, S. and Beltrametti, E. G. (2002). The Bell phenomenon in a probabilistic approach. In *Non-Locality and Modality*, T. Placek and J. Butterfield, eds., Kluwer Academic Publishers, Dordrecht, pp. 205–220.
53. Bugajski, S. and Beltrametti, E. G. (in press). Correlations and entanglement in probability theory. *International Journal of Theoretical Physics*; to be published in the issue devoted to the Proceedings of IQSA-2002, Vienna.
54. Bugajski, S. and Beltrametti, E. G. (in press). On the quantum mechanical correlations. *International Journal of Theoretical Physics*; to be published in the issue devoted to the Proceedings of the Ustron Conference, 2002.
55. Bugajski, S. and Beltrametti, E. G. (submitted). Separating classical and quantum correlations. *International Journal of Theoretical Physics*.
