

Errata

ERRATUM 1

The following are corrections to the paper titled "Thermodynamic Properties of 1,1,1,2-Tetrafluoroethane (R134a) in the Critical Region," by S. Tang, G. X. Jin, and J. V. Sengers, that appeared in the *International Journal of Thermophysics*, Vol. 12, No. 3, 1991.

The corrections are to Table IV (pages 532–537). In constructing Table IV a mistake was made in the calculation of the thermodynamic properties in the two-phase region. The correct values of the thermodynamic properties in the two-phase region are given in the table below. It should be noted that the values given in the original Table IV for the thermodynamic properties in the one-phase region are all correct.

We are indebted to A. van Pelt for noticing the mistake.

Table IV. Calculated Thermodynamic Properties (Partial, Two-Phase Region Only)

Temperature (K)	Density (mol · L ⁻¹)	Entropy (J · mol ⁻¹ · K ⁻¹)	Energy (J · mol ⁻¹)	Enthalpy (J · mol ⁻¹)	C _v (J · mol ⁻¹ · K ⁻¹)
365.0	3.0	-12.5	-3917.5	-2794.1	290
