

A Supplement to JCK

Mastery wins.

In Turkish, mastery means much more than it's literal content. To be the 'master'; you have to blend beauty with technology, knowledge with respect, high quality with speed and accessibility with unbeatable pricing. As Jewellery Industry of Turkey continue to satisfy the need of over 300 million people all around the world, we invite you to take advantage of the most attractive business opportunity.

Remember, it always takes mastery to be the winner.

What it takes to be the winner?

Don't forget, no one remembers the runner up. To be the "winner" you have to leave behind the out of date concepts and ordinary thoughts, you have to welcome the "Master".

In Turkish, mastery means much more than it's literal content. For us, it is more than just a word. To be the 'master'; you have to value beauty along with technology, blend knowledge with improvements, enrich your work with respect, bring in high quality with speed and provide accessibility with unbeatable pricing.

We are proud to say that our mastery heritage is made by gold.

5000 years ago, jewellery was made in Anatolia for the first time. Since then, the gold crafting techniques and knowledge have been passed on from Hittites to Lydians, Trojans, Urartus, Byzantines, Seljuks and Ottomans. Today, with Turkish craftsmen and advanced technology, this precious jewel continues to brighten up our future.

Mastery wins...

Now, yesterday's handwork has become one of the biggest manufacturing industries in Turkey more than 33.000 companies with 300.000 employees process 250 tons of gold into the world of jewellery every year. Today, Turkey is the 4th biggest retail market and 3rd biggest jewellery manufacturing and also it has the 2nd biggest jewellery export volume throughout the world. Turkish jewellery has many distinctive characteristics like distinguishing crafting techniques along with unique designs, speed and high quality.

Produced with expertise in information and technology, Turkish jewellery is exported to 135 countries. It is a fact that Turkey is fast becoming a preferred supplier for international buyers of gold jewellery.

As we continue to satisfy the need of over 300 million people all around the world, you are always welcome to explore our masterpiece work.
