"We use Arch Crown static cling vinyl crystal wraps to protect the crystals on our watches during handling and shipping. They fit perfectly with no adhesives to worry about. We recommend them to anyone in the watch industry."

Stephen J. Butler, President (631) 776-1135
CHRONOSWISS USA, LLC - Bellport, NY

"We use your static cling vinyl to wrap around the watches our salesmen carry in their lines when they visit their clients. It's very easy to use, goes on and off easily and can be used over and over again. It protects the finish of our fine Swiss watches. Thanks for the great service!"

Connie Steinbock, Customer Service
Maurice Lacroix USA - Encino, CA

"This product is excellent and helps us achieve a high degree of protection for our merchandise. Our customers are well served because we at Tourneau use this product."

Sal Cacioppo, Senior Manager
Tourneau, Inc. - New York, NY

Special Offer on Custom Printed Combination Sets!

Enhance your image in a professional manner.

As a merchandising aid or advertising vehicle, personalized custom tags and labels communicate your store's unique identity. **Once out of the store, Arch Crown tags and labels act as your most cost-effective advertising medium.**

For color selection and pricing information, see pages 14 thru 17.

Receive one **FREE** plate preparation, a \$50.00 value, when you order any combination of custom printed tags and/or labels.

Limit: One per customer. **Note:** 2 color and embossing plates are additional. Offer expires 12/31/10. Cannot be combined with any other promotional offer.

"I want to thank you again for doing a great job for us. We are tagging all our jewelry with a Journey Together™ and they look fabulous; you came through for us once again. This was a huge promotion for one of our largest accounts and you saved the day. Not only did you turn this around so rapidly, but your follow up was outstanding. It's a pleasure working with you; keep it up!"

Rita Mora, Vice-President

Weindling International LLC - New York, NY

Computer Tag and Bar Code Labeling Systems

Bar code technology solutions for jewelry pricing.

Thermal transfer printers, scanners, bar coding software, portable data collectors and computer tags allow for maximum efficiency in your warehouse, stock room and at the register.

Arch Crown Computer Tag and Label Systems are available for thermal transfer printers (pages 20 - 35) and dot matrix pin-feed printers (page 36). You will find the same quality and value in these systems as you do in the tags and labels that have made Arch Crown a leading supplier to the jewelry industry. We work with most software companies (page 34) developing efficient and customer friendly price tagging/labeling systems.

Designed for most thermal transfer printers including Datamax-O'Neil, Zebra/Eltron, Citizen/C.ITOH, Argox, Godex and Sato.

- High quality, tear resistant Mylar® and Kimdura® material.
- Mylar® is virtually indestructible with superior print durability and can withstand ultrasonic cleaning (type and bar code images will not rub off).
- Computer string tags are designed with a string-like tail and adhesive free loops for easy tagging.
- As a special service, thermal transfer tags are available on 1", 1 1/2" and 3" cores, please specify when ordering.

Arch Crown will re-roll tags to fit most printers at no charge!

Arch Crown can assist you in all your computer tagging requirements.

Print Your Own Tags for Under \$700.

Thermal transfer starter package includes everything you need to print tags using your own computer. The Starter Package is ideal for printing professional looking price tags with or without bar coding.

STARTER PACKAGE INCLUDES:

Datamax-O'Neil E4205 Printer (see page 30).

Our most popular model now features a faster print speed and larger capacity! One of the lowest priced, user-friendly printers in its class. Print labels up to 4" wide.

DataTagger for Windows® Software (see page 33)

FEATURES:

- No Programming Required. Compatible with all PCs – Windows® 95 and later (except Windows® 2000).
- Easy-to-use, point-and-click menu selection.
- Pre-designed label formats.
- Prints both text and bar codes
- Built-in database keeps track of label information.
- Saved tag and label information can be retrieved and edited.

How to Order Thermal Transfer Computer Tags & Labels

Be sure to follow these easy steps when ordering.

- Choose the tag/label you want to use.
- Make sure that the width of the tag/label will fit on your printer.
- Check core size for the labels required for your printer (inner diameter of the core)
Citizen/C.ITOH takes 3" cores and most large Zebra printers take 3" cores
Datamax Allegro, Prodigy, I-CLASS and M-CLASS Series printers take 3" cores
Datamax Ovation/E-4203, E-4204 and E-4205, Zebra 2844/T300 and GK420T,
Citizen CLP-621, Eltron 2742, GODEX EZ-1300 and Argox OS-214/A-200 printers
take 1" cores. Barcode Blaster Advantage and SATO CX series takes 1 1/2" cores
- When ordering be sure to tell us your printer model and the core size you require.
Please note: Labels ordered on cores smaller than 3" will be supplied on 2 or 3 rolls
You will receive the same quantity of labels as supplied on a 3" core.
- Make sure that you order the correct ribbon for your printer/material combination.
Ribbons are printer and material specific and may not work if not ordered correctly.

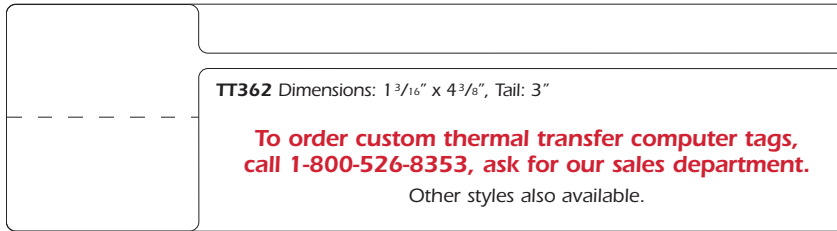

To order call
1-800-526-8353

ArgoKee KDU – Keyboard Display Unit

Print computer tags and labels without using a computer.

ArgoKee KDU (Keyboard Display Unit) is a small, portable keyboard, with an integrated 2-line display screen. User-friendly KDU connects directly to a thermal transfer printer, and allows the user to print tags and labels. It's ready to go without a computer!

ArgoKee is ideal for printing tags and labels where the user does not own a computer or have access to one, e.g. jewelry exchanges, trade shows, kiosks and warehouses.

ArgoKee KDU Features:

- Same keyboard as a laptop computer, full 85 alpha-numeric keys.
- 2-line, 20 character LCD – enough to show prompt and data entered.
- Can be formatted for any type label, including jewelry, shipping, mailing, etc.
- Can hold between 10 and 20 formats, depending on size and complexity of label design.
- Compatible formats for Datamax-O'Neil, Argox, Godex, Citizen and Eltron printers.

ArgoKee KDU \$299.00

Includes up to five custom formats, cables and one year manufacturer's warranty.

Produce Professional Looking Computer Tags

We offer the following brands: ■ Datamax-O'Neil ■ Zebra/Eltron ■ Citizen/C.ITOH ■ Sato ■ Cognitive Solutions ■ Godex

We can supply printers with a variety of capabilities including:

- Thermal transfer & thermal direct printers
- Print resolution of 203, 300, 400, 600 DPI
- Label width capabilities up to 8 inches
- Printer speed from 3 to 12 inches per sec.

Call us with your labeling requirements. We have the printer to fit your needs and your budget. See page 31 for industrial printers.

The Newest Generation of Datamax-O'Neil's E-Class

Datamax-O'Neil E-4205 Thermal Transfer or Direct Thermal Mode

datamax • o'neil

Datamax E-4205 Printer
Suggested Retail Price \$595
Call for current pricing!

NEW!

Datamax-O'Neil E-Class™ is the printer of choice when value, performance and features are the primary printer requirements. The E-4205 thermal label printer offers more speed (70% faster) and larger label capacity for demanding retail and small manufacturing printer applications than its predecessor at the same low price. Power supply allows print speeds of up to 5" per second. It can print labels up to 4.25" wide for shipping compliance labeling. The printer's body has been designed to accommodate label or tag stock rolls up to 5" in diameter. Easy to use 3-button, 3-LED control panel for maximum configuration flexibility and printer status indication. Small footprint allows printer to fit on any desktop. Available in two colors: cool grey or warm white.

Godex EZ-1300 Thermal Transfer Printer

Competitively priced packages including GODEX EZ-1300 available.

This value priced 300 DPI printer allows you print 2-D bar codes, smaller bar codes and higher quality graphics. Prints at 3" per second. Connects to parallel, USB or serial ports. Comes with Godex Q-label software that gives you the ability to design and print labels but has a limited database capability. Download a driver for use with most Windows based programs.

GODEX EZ-1300 Printer

Call for current pricing!

Serial Data Communication Cable

Most thermal transfer printers offer multiple options when connecting to your computer. A standard parallel printer or USB cable will work in most cases. If you prefer or your software requires a serial connection, we offer custom pinned serial cables for most printers.

Cable-S \$35.00

Desktop and Industrial Thermal Transfer Printers

Manufacturers and high volume retailers best choices for both on-demand, short run or high volume usage!

Zebra GK420T Printer
Suggested Retail Price \$695.
Call for current pricing!

NEW!

We offer the complete line of Zebra Printers.

The GK420T thermal transfer desktop label printer offers a 4 inch print width capability. This model provides the best value in a basic desktop printer with a print speed of 5" per second at 203 DPI resolution. GK420T has a sleek and compact design, boasts the easiest ribbon loading system on the market., and supports a variety of applications for the office, warehouse, lab or store. Zebra's affordable GK420T fulfills a multitude of labeling requirements.

CITIZEN

Micro HumanTech

Citizen CLP-621 Printer
Suggested Retail Price \$645.
Call for current pricing!

NEW!

We offer the complete line of Citizen Printers.

CLP-621 offers unparalleled versatility in the desktop thermal printer class. Printing in both direct thermal and thermal transfer modes, the CLP-621 features a 360-meter ribbon for greater productivity and reduced downtime, 4" per second print speed and 4.1-inch print width. Citizen's metal Hi-Lift™ mechanism allows easy access for loading of media and/or ribbons. The adjustable media sensor can handle a wide variety of label configurations. Powerful on-board 32 Bit RISC processor delivers exceptional throughput and fast first label out. Standard interfaces: internal parallel, serial and USB included. Optional Ethernet and Wifi interfaces are available.

datamax • o'neil

NEW LOWER PRICE!

Datamax M4206 Mark II Printer
Suggested Retail Price \$1245.
Call for current pricing!

This Datamax-O'Neil quality printer offers capabilities of a large volume printer with a midrange price. The M-Class series include many of the options of higher priced printers including 6" per second print speed, die cast aluminum casing, large label and ribbons capacity, fast and easy media loading. New easy to read LCD displays on screen messages. Standard interfaces: serial, parallel and USB ports included. Options: Ethernet connectivity, an internal rewinder, a cutter and a peel and present sensor for single label printing. Can replace your old Zebra printer. One year warranty on print-head; two years on printer.

Bar Code Scanners and Portable Data Collectors

Honeywell Voyager MS9540 (formerly Metrologic)

New sleek ergonomic design features Honeywell's proprietary CodeGate technology. The Voyager is one of the most advanced single-line, hand-held bar code scanners on the market. Labelview Software for Thermal Transfer Printers

Label design software for laser and bar code printers.

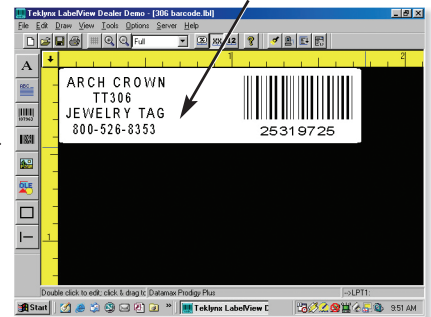

Easy to use label design software program offers the benefits of thermal transfer printing to businesses that do not currently have bar coding capabilities. Whether you have a program without the ability to print jewelry tags or simply want the neat clean appearance of thermal printing, Labelview is your answer for importing data, formatting, designing and printing your own tags.

Easy-to-Use, Easy-to-format
Features Pre-Designed Label Formats.
We can format your tags for you.

- ✓ Starter formats for all our thermal transfer tags included when purchased from Arch Crown
- ✓ Can be formatted to print virtually any size label.
- ✓ Works with any printer with a Windows® Driver, including laser, ink jet and even dot matrix.
- ✓ Capability to save thousands of SKU's (inventory items) with internal database. Consecutive numbering available.
- ✓ Can be linked to external sources, such as Excel and Access, offering live integration with your inventory.
- ✓ Able to imprint UPC, interleaved 2 of 5, Code 3 of 9, Code 128 and all other standard bar code symbologies.
- ✓ Graphics, company logos and True-Type® font printing capability.
- ✓ Network versions available, 3 to 50 users.
- ✓ Free Tech Support for 30 days.

LBV Print-Only version \$250.
Limited to pre-formatted labels only.
LBV Pro version \$499.
Full formatting capability.

Watch tag adheres to back of case without leaving a glue residue.
Pressure sensitive adhesive area

Molded Plastic Tags for That Special Presentation!

The look, the feel... everything about these durable plastic molded relief tags says 'exceptional quality' about the jewelry on which they are attached.

Custom molded tags come in a variety of shapes and styles. Molded tags can be foil printed on both sides or a bar code label and pricing information can be applied to the back side of tag. Available in a textured or smooth finish, *please specify finish*.

Sunken, knotted or our new 'secure-lock' braided cord, *please specify cord style*. 'Secure-lock' cord can be easily attached to most jewelry. Once closed, the tag cannot be re-opened unless the cord is cut (helping to minimize unauthorized returns).

FREE Custom PMS Color Match Now Available... A \$150 Value!

Molded Tags - Style MT One time mold charge \$225.00

Minimum 3000	5000 and up	10,000	over 10,000
