

LITERATURE AVAILABLE

Apparatus. Catalog containing descriptions of general laboratory apparatus. E. H. SARGENT & Co. **L 1**

Automatic Weighing Scales. An 8 page bulletin covering the complete transportometer line of continuous automatic weighing scales, for accurate control of conveyor materials. SINTERING MACHINERY CORP. **L 2**

Boxes. A booklet entitled "The Logistics of Boxes" illustrates and describes the handling of boxes in load units. According to the booklet any rectangular article which can be loaded on a pallet for transportation may be considered a box. ELWELL-PARKER Co. **L 3**

Chemical Catalog. Catalog giving complete information regarding products and technical literature including fungicides and various preservative agents. WITCO CHEMICAL Co. **L 4**

Emulsifiers. Technical booklet on new developments in emulsifying agents and techniques which have led to increased uses of lacquer emulsions. HERCULES POWDER Co. **L 5**

Fertilizer. Booklet on the use of wetting agents in the production of fertilizers. In addition to speeding reactions wetting agents also produce better flowability and texture in the finished product. MONSANTO CHEMICAL Co. **L 6**

Flotation Agents. Technical booklet on flotation agents describing various flotation agents and processes in which flotation techniques have been utilized. HERCULES POWDER Co. **L 7**

Food Chemicals. Pamphlet containing information on vitamins, food colors, sanitizing agents, amino acids, and other products prepared for food industry. STERWIN CHEMICALS, INC. **L 8**

Glass Apparatus. Catalog of standard and special glass apparatus including prices, descriptions and illustrations as well as directions for ordering special apparatus not covered in the catalog. WAKEFIELD INDUSTRIES **L 9**

Gum Arabic. Technical bulletin provides general information on the origin, physical and chemical properties of gum arabic includes suggested uses of the material in food processing. MORNINGSTAR NICOL, INC. **L 10**

Industrial Controls. Catalog describes and illustrates electric, electronic and pneumatic controllers for pressure temperature and humidity includes specifications, dimensions, and application data. MINNEAPOLIS HONEYWELL REGULATOR Co. **L 11**

Materials Handling. Aluminum in materials handling, a booklet of 6 articles reporting the results of a survey covering a number of industries, showing advantages of aluminum materials handling equipment. THE ALUMINUM ASSOCIATION **L 12**

Peracetic Acid. Bulletin on peracetic acid, with description of its bacteriacide and fungicide properties and applications in the food processing industries. BUFFALO ELECTRO-CHEMICAL Co. **L 13**

Radiation Instruments. Catalog listing complete line of radiation detection and counting instruments with emphasis on proportional counters designed for quantitative work. NUCLEAR MEASUREMENTS CORP. **L 14**

Release Agent. Data on Slipcone, a release agent which can be applied to food processing equipment to reduce the cost of maintenance and sanitation. DOW CORNING CORP. **L 15**

Rubber Linings. An illustrated bulletin outlining the advantages and applications of rubber lining to steel tank, pipes, etc. METALWELD, INC. **L 16**

Stainless Steel. A complete line of stainless steel plates, forgings sheets, etc. is described in a 4-page illustrated bulletin. G. O. CARLSON **L 17**

Warburg Manometers. Catalog of a line of improved Warburg manometers includes descriptions of some specialized reaction vessels. BRONWELL SCIENTIFIC, INC. **L 18**
