

# ARE YOU USING THE READERS' INFORMATION SERVICE?

In This Issue Your RIS Coupon  
Appears on this Page

ACS editors screen all manufacturers' product announcements and industrial literature, publishing only what is *really* new and containing valuable scientific or technical data.

You can trust the judgment of ACS editors not to clutter Readers' Information Service with items of doubtful value simply to prove "readership."

Every chemist, every chemical engineer should make certain he keeps up to date by:

- (1) Subscribing and reading those ACS publications which serve his particular field.
- (2) Examining carefully the advertising pages in ACS publications, for they contain scientific and technical data second only in importance to the editorial pages.
- (3) Building up a substantial reference file of manufacturers' literature to provide valuable information quickly.

The following ACS publications:

Journal of Agricultural and Food Chemistry  
Analytical Chemistry  
Chemical and Engineering News  
Industrial and Engineering Chemistry

provide Readers' Information Service. Just circle the items you wish to receive, mail, and ACS service will bring what you want promptly.

YOUR RIS COUPON

## LITERATURE AVAILABLE

**Agricultural Emulsifiers.** The physical properties of a line of agricultural emulsifiers are described in this technical bulletin. Formulation suggestions for various pesticide sprays are included. THOMPSON-HAYWARD CHEMICAL Co. **L1**

**Aluminum Jacketed Pipe Insulation.** The advantages of a form of aluminum wrapped cellular glass insulation are described in this bulletin. Specifications for the insulation of both hot and cold lines are presented. PITTSBURGH CORNING CORP. **L2**

**Bellows.** Bulletin describes temperature, corrosion, and vibration resistant bellows. The metal expansion bellows are designed for conveying gas and liquids under either high or low pressures. TITFLEX INC. **L3**

**Cast Plastic Sheets.** Catalog describes and illustrates applications of clear cast plastic sheets. Unusual features such as resistance to abrasion and heat are features. Technical properties and fabrication data are included. CAST OPTICS CORP. **L4**

**Chemical Apparatus.** Catalog of chemical apparatus includes descriptions of fluids pump, ovens, ultra violet lamps, rapid scanning spectrophotometer, and other laboratory apparatus. SCIENTIFIC GLASS APPARATUS Co. **L5**

**Freeze Drying.** Comprehensive 24-page brochure on freeze drying in industry, describes typical processing problems solved by freeze drying. The range of equipment developed for large scale freeze drying is also described. F. J. STOKES MACHINE Co. **L6**

**Glycerine.** The versatility of glycerine in chemical formulations is discussed in this bulletin. The properties of glycerine and the advantages of these properties in solving manufacturers problems are discussed. GLYCERINE PRODUCERS ASSOCIATION **L7**

**Hydrogen Peroxide, Safety.** Safety factors relating to the handling and storage of hydrogen peroxide are discussed in this bulletin. Text includes a theoretical study of the heat balance in storage ves-

seis with charts and graphs illustrating storage behavior. BUFFALO ELECTRO-CHEMICAL Co. **L8**

**Odor Neutralizer.** Price and catalog sheet on a line of chemicals for neutralizing odors. The preparation is water soluble and noncorrosive and is recommended for neutralizing industrial odors. MERCURY CHEMICAL Co. **L9**

**Polyglycol Derivatives.** Information and technical data on a series of mono-methyl and mono-octyl ethers of polyethylene and polypropylene glycols. These ethers have an average molecular weight of 600 and are characterized by a linear structure with an alkyl group at one end and a hydroxyl group at the other. DOW CHEMICAL Co. **L10**

**Portable Pump.** Illustrated bulletin describes a portable centrifugal pump. The pump with engine weighs 65 pounds and is rated to deliver 100 G.P.M. Operating data, specifications and diagrams are included in the bulletin. KENCO PUMP Co. **L11**

**Protective Paint.** A number of case histories of the successful use of chlorinated rubber protective coatings are presented in this illustrated booklet. A section on performance data, application instructions, and directions for use is included. The paint is recommended for use in chemical and food processing plants. HERCULES POWDER Co. **L12**

**Radiation Instruments.** Catalog of a line of radiation counters, electronic equipment and other instruments for use in radiation work. RADIATION COUNTER LABORATORIES **L13**

**Synchronous Motor Control.** Operation and control of synchronous motors are described in this 16-page bulletin. The publication explains the electrical operation of synchronous motors and the areas where control is essential. The illustrated bulletin describes various control units and gives rating and dimension data. GENERAL ELECTRIC **L14**

**Vibration-Free Balance Table.** This technical bulletin gives plans and directions for construction of a vibration free balance table for supporting an analytical balance. FISHER SCIENTIFIC Co. **L15**
