

# ARE YOU USING THE READERS' INFORMATION SERVICE?

In This Issue Your RIS Coupon  
Appears on this Page 

ACS editors screen all manufacturers' product announcements and industrial literature, publishing only what is *really* new and containing valuable scientific or technical data.

You can trust the judgment of ACS editors not to clutter Readers' Information Service with items of doubtful value simply to prove "readership."

Every chemist, every chemical engineer should make certain he keeps up to date by:

- (1) Subscribing and reading those ACS publications which serve his particular field.
- (2) Examining carefully the advertising pages in ACS publications, for they contain scientific and technical data second only in importance to the editorial pages.
- (3) Building up a substantial reference file of manufacturers' literature to provide valuable information quickly.

The following ACS publications:

Journal of Agricultural and Food Chemistry

Analytical Chemistry

Chemical and Engineering News

Industrial and Engineering Chemistry

provide Readers' Information Service. Just circle the items you wish to receive, mail, and ACS service will bring what you want promptly.

YOUR RIS COUPON 

## LITERATURE AVAILABLE

**Agricultural Chemicals.** Products list of a number of herbicides, insecticides, and fungicides manufactured by a formulator. RIVERDALE CHEMICAL CO. **L1**

**Biological Chemicals.** Catalog of biological chemicals and preparations of interest to research workers in biology, biochemistry, and nutrition. Animal test diets, and other specialized preparations are described. GENERAL BIOCHEMICALS INC. **L2**

**Boilers.** A line of packaged automatic boilers is described in this 4 page folder. The advantages of packaged automatic boilers is contrasted with equipment of conventional design. A list of typical installations, classified by industry is included. ORR & SEMBOWER **L3**

**Chemical Processing Equipment.** Catalog of a line of chemical processing equipment, illustrated with specifications. Information on capacities, machine sizes, and horsepower requirements, as well as, design and operating features is included. DENVER EQUIPMENT CO. **L4**

**Hammer Mill.** An instant screen change hammer mill is described in this bulletin. Five different models of the mill are available and a complete set of capacities, dimensions, and weights is included. SCHUTTE PULVERIZING CO. **L5**

**Laboratory Sinks.** Bulletin describes ceramic laboratory sinks. The sinks, of one piece seamless construction, are resistant to almost all corrosive materials. GENERAL CERAMICS AND STEATITE CORP. **L6**

**Materials Processing.** Equipment and systems for processing dry and semi dry materials are described in this illustrated booklet. The application of various types of machinery to various processing problems is discussed. SPROUT-WALDRON CO. **L7**

**Optical Pyrometer.** The principles of optical pyrometry are discussed in this catalog. Detailed technical information, and illustrations of applications of various

optical pyrometers are included. THE PYROMETER INSTRUMENT CO. **L8**

**Pesticide emulsifier.** A modified versatile type of pesticide emulsifier for toxaphene, chlordane, and malathion is described in a recently issued technical bulletin. EMULSOL CORP. **L9**

**Phenyl Ethanolamines.** A new technical bulletin on various phenyl ethanolamines discusses physical and physiological properties, shipping data, solubilities, and potential applications. CARBIDE AND CARBON CHEMICALS CORP. **L10**

**Research and Testing.** The research and testing laboratories of the Wisconsin Alumni Research Foundation are described and discussed in this illustrated booklet. A catalog of laboratory services, including insecticide and food testing is also available. WISCONSIN ALUMNI RESEARCH FOUNDATION **L11**

**Sprayer-Duster.** A sprayer duster machine for application of pesticides, uses an axial flow turbine blower to form aerosols of dusts and sprays. The machine will handle either liquids, dusts, or combinations of the two. BUFFALO TURBINE CO. **L12**

**Steam Measurement.** An engineering equipment package for the measurement of steam under widely different load conditions is described in an application memo. BUILDERS-PROVIDENCE INC. **L13**

**Tank Cars.** Booklet describes tank car and storage tank valves. Technical data, specification drawings, and applications of a variety of valves are included in this booklet type catalog. AMERICAN CAR AND FOUNDRY CO. **L14**

**Viscosity Measurement.** Technical report describes a system for viscosity measurement. The publication is intended to explain the application of the rotational viscometer for the control of product quality. A section of application data covers the use of the system on Newtonian and non-Newtonian materials. FOXBORO CO. **L15**
