

Protein, Fat and Fiber determinations made easy

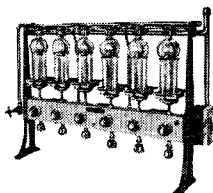

LABCONCO KJELDAHL

"Labconco" Kjeldahl for protein determinations is the choice of leading labs everywhere. Models in 6 to 96 flask capacity, gas or electric heat, separate or combined digestion and distillation apparatus. 25 years of Kjeldahl manufacturing have brought many worthwhile and exclusive features for today's buyer.

GOLDFISCH FAT EXTRACTOR

Goldfish Fat Extractor features automatic release-and-seal to cut solvent extraction time in determinations of fat, carotene, etc. Accurate, safe, recovers most of solvent. In use in hundreds of school and industrial laboratories. Made in 2, 4, and 6 capacity units, complete with all glassware.

CRUDE FIBER CONDENSER

"Labconco" Crude Fiber Condenser saves time and labor; minimizes frothing in the troublesome part of the fiber determination. Instant response to heat regulation; no troublesome hose connections. Made in 2, 4, and 6 capacity units, complete with all glassware.

Write today for new illustrated catalog "C-53" of protein, fat and fiber equipment.

Kansas City, Missouri

LITERATURE AVAILABLE

Anion Exchange Resin. Technical bulletin on a weakly basic anion exchange resin, Dowex 3, useful for the removal of mineral acids from either aqueous or non-aqueous solutions. DOW CHEMICAL CO. **L1**

Analytical Methods. A summary of methods and suggested list of equipment for the determination of moisture in food, food products, insecticides, and fungicides according to the Official Methods of the Association of Official Agricultural Chemists, 7th edition of 1950. CENTRAL SCIENTIFIC CO. **L2**

Anhydrous Ammonia. Technical data sheet on anhydrous ammonia, includes specifications, shipping regulations, and safety precautions. The various applications of the chemical in industrial chemical processing are described and recommended procedures are outlined for handling and storing the material. COMMERCIAL SOLVENTS **L3**

Bag Packer. An automatically controlled weight bag packer is described in this folder. The manufacturers guarantee the performance of the device. BLACK PRODUCTS CO. **L4**

Chemical Index. A 304-page catalog with the largest listing of laboratory chemicals available today. In addition to a comprehensive listing of reagents, culture media, radioactive compounds and ion exchange resins the catalog gives structural formulas and physical data for most of the chemicals. FISHER SCIENTIFIC CO. **L5**

Electric Ovens. A 4-page brochure on electric ovens for general and analytical laboratories and pilot plant installations. The brochure describes units usable in chemical and food installations. BLUE M. ELECTRIC CO. **L6**

Elevator Belting. Illustrated engineering handbook on elevator belting. The handbook describes and illustrates types of belt bucket elevators and construction features. In addition a section on belt installation is included. B. F. GOODRICH CO. **L7**

Fire Protection. Foam fire protection is discussed in this booklet. The booklet is designed for reading and reference and contains a comparison of mechanical and chemical foam techniques. NATIONAL FOAM SYSTEMS INC. **L8**

Literature Research Service. Scientific Sleuting is the title of this booklet which outlines the literature research services available to industrial groups. The services include bibliographies, abstracts, and translations. ARMOUR RESEARCH FOUNDATION **L9**

Muffle Furnaces. Bulletin describes a line of industrial muffle furnaces; design and construction feature are included. Photographs of typical applications, and engineering data are included. SURFACE COMBUSTION CORP. **L10**

Multiwall Bags. Packaging guide discussed the efficient use of multiwall bags. The storage, filling, handling, and transportation of multiwall bags are discussed. In addition the various consumer services of the manufacturer of the bags are presented. BEMIS BROS. BAG CO. **L11**

Seed Treatment. The advantages of seed treatment to prevent storage deterioration and germination are discussed and a variety of machines for applying seed chemicals are described. PANOGEN INC. **L12**

Scientific Apparatus. Catalog of an equipment supplier, contains comprehensive data and illustrations on laboratory and processing equipment. ANDREW TECHNICAL SERVICE **L13**

Spray Nozzles. Comprehensive industrial spray nozzle catalog. A number of special and industrial nozzles are illustrated, each one is described and engineering data is included. In addition to spray nozzles a variety of related equipment is included such as various pipe fittings. **L14**

Turbine Pumps. This 24-page brochure describes special designs of regenerative turbine pumps available for chemical service. A survey of the variety of mechanical seals available in turbine chemical pumps is included. ROY E. ROTH CO. **L15**
