

LITERATURE AVAILABLE

Deminerlization. Chemical and mechanical factors entering into the design and operation of deminerlizing plants for obtaining process water and boiler feed water from a wide range of water supplies are fully explained in this 24-page bulletin. GRAVER WATER CONDITIONING Co. **L1**

Fertilizer Industry, Pacific Northwest. This is a comprehensive raw materials survey of the Pacific Northwest fertilizer industry. The survey contains information on: where the raw materials originate, who processes primary fertilizer chemicals, agents and mixers, production and consumption statistics, and the trends of the industry. RAW MATERIALS SURVEY **L2**

Food Processing. Descriptive folder on a canner's conveyor belt, gives description of the improvements which have been made in the products. GOODYEAR TIRE & RUBBER Co. **L3**

German Research. Listing of recent German patent applications concerning the production of hydrocarbons and derivatives. The review consists of three sections: acetylene and derivatives; hydrogenation of carbon monoxide; carboxylic acids and derivatives. RESEARCH INFORMATION SERVICE **L4**

Glass Apparatus. Catalog and price list of scientific glassware and glass apparatus. DELMAR SCIENTIFIC LABORATORIES **L5**

High Short Canning. Illustrated booklet traces the development of continuous canning technique. FOOD MACHINERY AND CHEMICAL CORP. **L6**

Literature Research Service. "Scientific Sleuthing" is the title of this booklet which outlines the literature research services available to industrial groups. The services include bibliographies, abstracts, and translations. ARMOUR RESEARCH FOUNDATION **L7**

Livestock Guide. Pocket-size folder covers a calendar of pest control for beef and dairy cattle, sheep and goats, horses, and other livestock. Spray schedules are

outlined for various livestock pests. CALIFORNIA SPRAY CHEMICALS CORP. **L8**

One-Ton Containers. The manufacture of large volume containers for gases and liquids is discussed in this 12-page booklet. The containers, constructed of steel, can be used for shipment or storage of a variety of materials including anhydrous ammonia. COLUMBIANA BOILER Co. **L9**

Pesticide Spray Schedule. Booklet presents fundamental facts on insecticide needs. A table of principal crops and locations is included with recommended spray procedures and amounts of pesticide necessary to control various insect pests. MICHIGAN CHEMICAL CORP. **L10**

Soil Testing. A kit for complete analysis of chemical elements important in testing fertility of soil. In addition to the complete analytical kit, various modified analysis sets are described. EDWARDS LABORATORIES **L11**

Spectrography. Catalog illustrates and describes in detail various types of Raman spectrographs. Control units, cameras, oscillators, and other accessory equipment are also described. HILGER & WATTS LTD. **L12**

Steam Generators. Bulletin gives detailed coverage of packaged steam generators which are furnished for either oil or gas firing. Cutaway drawings, installations, photos, auxiliary equipment, and a dimension table of standard models are included. UNION IRON WORKS **L13**

Surface Active Agents. Booklet outlines the latest information on surface active agents and their industrial applications. Contains a discussion of the basic chemistry and toxicity data. AMERICAN CYANAMID Co. **L14**

Testing Sieves. Bulletin covers a line of standard testing sieves and sieve shaker. NEWARK WIRE CLOTH Co. **L15**

X-Ray Tools. Application of film diffraction, spectrometer, and spectrograph in research are briefly explained. Advantages and limitations of each are summarized. NORTH AMERICAN PHILIPS Co. **L16**

Protein, Fat and Fiber determinations made easy

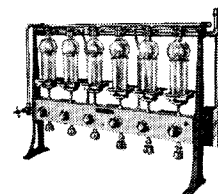

LABCONCO KJELDAHL

"Labconco" Kjeldahl for protein determinations is the choice of leading labs everywhere. Models in 6 to 96 flask capacity, gas or electric heat, separate or combined digestion and distillation apparatus. 25 years of Kjeldahl manufacturing have brought many worthwhile and exclusive features for today's buyer.

GOLDFISCH FAT EXTRACTOR

Goldfish Fat Extractor features automatic release-and-seal to cut solvent extraction time in determinations of fat, carotene, etc. Accurate, safe, reclaims most of solvent. In use in hundreds of school and industrial laboratories. Made in 2, 4, and 6 capacity units, complete with all glassware.

CRUDE FIBER CONDENSER

"Labconco" Crude Fiber Condenser saves time and labor; minimizes frothing in the troublesome part of the fiber determination. Instant response to heat regulation; no troublesome hose connections. Made in 2, 4, and 6 capacity units, complete with all glassware.

Write today for new illustrated catalog "C-54" of protein, fat and fiber equipment.
