

FERTI-LIQUID

Trade Mark Reg Patent Pending

The All-Purpose LIQUID Fertilizer!

Completely Balanced with 8 Trace Elements and Wetting Agent for Rapid Plant Assimilation.

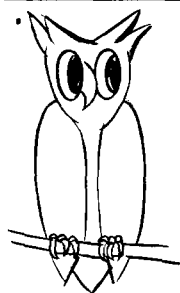

CHECK these reasons why Ferti-Liquid is preferred by farmers everywhere!

- ✓ Can be combined with insecticides, herbicides and fungicides to *de-weed* and *de-bug* as you fertilize and feed
- ✓ Non-corrosive — use safely with any type spray — tractor, boom, jet or aerial
- ✓ Supplies vital, needed PLANT FOOD (nutrients) all through the hot-summer, growing season. *Result: Bigger, surer yield! More and quicker profits for the farmer!*
- ✓ Cheaper, too, on a per-pound of Plant food (nutrient) basis

Who?

The 17,000 persons who made news in the chemical world during 1953 may be found in C&EN's

NAMES IN THE NEWS INDEX FOR 1953

An invaluable reference for all whose interests require contact with and knowledge of the key people sparking today's chemical progress.

WHAT, WHERE, AND WHEN of 1953's chemical news are covered in a 58-page companion SUBJECT INDEX with over 6000 entries.

Each volume, paperbound, \$3.00

LITERATURE AVAILABLE

Anhydrous Ammonia Equipment. Catalog of a line of valves for anhydrous ammonia storage and application equipment. BASTIAN BLESSING CO. **L1**

Chemical Catalog. Complete descriptive catalog of all products manufactured by American Potash & Chemical Corp. Includes complete information on the properties and applications of chemical groups such as borons, sodium, potassium, lithium, and bromine. Information on insecticides, miticides, fumigants, weed killers, defoliants and other agricultural chemicals is included. AMERICAN POTASH & CHEMICAL CORP. **L2**

Electrical Equipment for the Process Industries. This 28-page publication provides information on electrical equipment for power generation, power distribution and conversion power utilization, instrumentation, and other descriptive publications. GENERAL ELECTRIC **L3**

Epoxidation of Fats. A new method for the epoxidation of unsaturated fats, oils, and derivatives is described in this bulletin. High yields of epoxy oxygen have been obtained under the new process with soybean oil, linseed oil, and unsaturated fatty esters. DU PONT **L4**

Fertilizer. "A Balanced Diet for Plants" is the title of this bulletin published by the California Fertilizer Association. General information on fertilizer requirements is featured as well as the use of mixed fertilizers. A plant food utilization chart in four colors is included. CALIFORNIA FERTILIZER ASSOCIATION **L5**

Fumigation. Booklet describes in detail the use of chloropicrin as a fumigant for grain in warehouses. Chloropicrin is effective against both insects and rodents. There is a section on low cost grain fumigation. LARVACIDE PRODUCTS INC. **L6**

Instruments Catalog. In addition to a complete listing of instruments and accessories, this catalog contains brief descriptions of many widely used analytical systems. Included are discussions of absorption, spectrochemistry, colorimetry,

pH measurement and flame photometry. COLFMAN INSTRUMENTS INC. **L7**

Laboratory Glassware. More than 2600 pieces of special apparatus are included in this catalog, "Custom Made Glass by Corning." The catalog lists modifications of some of the standard items of Pyrex brand laboratory glassware. CORNING GLASS WORKS **L8**

pH Bulletin. Bulletin on instrumentation for pH measurement and automatic control, contains drawings and photos of pH recording and controlling instruments in process industries. THE BRISTOL CO. **L9**

Pneumatic Conveying System. Bulletin illustrates and describes a pneumatic conveying system which will handle approximately 500 pounds per hour of solid materials ranging in size from 4 to 400 mesh. The system is dust tight and self cleaning. YOUNG MACHINERY CO. **L10**

Propylene Oxide. Four-page technical information sheet on propylene oxide. Physical properties, specifications, shipping data, constant boiling mixtures, physiological properties, and uses are discussed. UNION CARBIDE AND CARBON CORP. **L11**

Pumps and Filters. Catalog illustrates and describes with use and application data and specifications a line of pressure filters, ion exchangers, centrifugal pumps, heat exchangers, and rubber lining service. INDUSTRIAL FILTER AND PUMP MANUFACTURING CO. **L12**

Spider Mite Control. Descriptive booklet outlines the use of Estonmite-50W for the control of spider mites in agricultural crops. The insecticide destroys the insect principally by killing mite eggs. AMERICAN POTASH & CHEMICAL CORP. **L13**

Stainless Steel. "Making the Most of Stainless Steel in the Chemical Process Industries" is the title of this 44-page book. With a chart and supplementary text, the book tells the kinds of corrosion and corrosive media that stainless steels will handle successfully. CRUCIBLE STEEL CO. OF AMERICA **L14**
