

Protein, Fat and Fiber determinations made easy

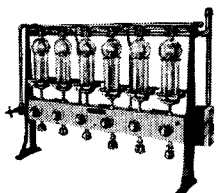

LABCONCO KJELDAHL

"Labconco" Kjeldahl for protein determinations is the choice of leading labs everywhere. Models in 6 to 96 flask capacity, gas or electric heat, separate or combined digestion and distillation apparatus. 25 years of Kjeldahl manufacturing have brought many worthwhile and exclusive features for today's buyer.

GOLDFISCH FAT EXTRACTOR

Goldfish Fat Extractor features automatic release-and-seal to cut solvent extraction time in determinations of fat, carotene, etc. Accurate, safe, reclaims most of solvent. In use in hundreds of school and industrial laboratories. Made in 2, 4, and 6 capacity units, complete with all glassware.

CRUDE FIBER CONDENSER

"Labconco" Crude Fiber Condenser saves time and labor; minimizes frothing in the troublesome part of the fiber determination. Instant response to heat regulation; no troublesome hose connections. Made in 2, 4, and 6 capacity units, complete with all glassware.

Write today for new illustrated catalog "C-54" of protein, fat and fiber equipment.

LABORATORY CONSTRUCTION COMPANY

1115 Holmes

Kansas City, Missouri

LITERATURE AVAILABLE

Alkyl Amines. Technical bulletin on tertiary-alkyl primary amines. Chemical and physical properties, suggested applications and chemical reactions are discussed. ROHM & HAAS Co. **L1**

Analytical Control Instruments. Illustrated general purpose catalog contains information on different types of mass spectrometers and other electronic analytical instruments. Detailed information is also given on the company's analytical services sections which serves research and industrial organizations. CONSOLIDATED ENGINEERING **L2**

Data Processing Instruments. Booklet furnishes information on a line of data processing equipment, ranging from miniature transducers to entire instrumentation systems. Photographs, technical specifications, and descriptive functional diagrams are included. CONSOLIDATED ENGINEERING CORP. **L3**

Engine Generator Sets. Bulletin on engine generator sets for continuous or stand by generation of electrical power. Seven engine models are with generators capable of producing from 50 to 350 kw. of electricity are illustrated and described. Combined horsepower and kilowatt charts give an accurate picture of intermittent and continuous horsepower. Installation drawings are included. LE ROI DIVISION, WESTINGHOUSE AIR BRAKE Co. **L4**

German, Russian Research. Catalog contains abstracts of patent applications and research reports on the latest developments of the pharmaceutical industries in Germany and Russia. Catalog of abstracts includes the following sections: Antibiotics; Hormones; Nicotinic Acid; Drug Intermediates. RESEARCH INFORMATION SERVICE **L5**

Instruments. Catalog of a line of electrical instruments which utilize atomic batteries as a power supply source. OHMART CORP. **L6**

Process Equipment. Bulletin covers the services of a process plant engineering firm. Services discussed include: design and construction of process plants and process units; design and construction of special process equipment; stills for the large volume production of distilled water. BADGER MANUFACTURING Co. **L7**

Processing Equipment. Catalog on blending, processing, and heat exchange equipment. Photos and specifications on a variety of sizes and adaptations of basic types of blenders are included. PATTERSON-KELLEY Co., INC. **L8**

Processing Equipment. Catalog of chemical processing equipment. Food processing, fertilizer and fish processing equipment is discussed. RENNEBURG & SONS **L9**

Process Instruments. Catalog with illustrations, descriptions, and basic specifications of a line of process instrumentation. Centralized control panels, both standard and graphic, are included. FISCHER & PORTER Co. **L10**

Phthalic Anhydride. Twenty-four-page booklet summarizes information on uses of phthalic anhydride. Chemical and physical characteristics of the compound are discussed and its use in the manufacture of resins, dyes, and complex organic compounds is reviewed. Handling methods for phthalic anhydride are discussed. MONSANTO CHEMICAL Co. **L11**

Rotary Feeders. Bulletin describes rotary feeder for pressure or vacuum feed. Plans and elevation drawings are included. BEAUMONT BIRCH Co. **L12**

Soybean Protein. Technical bulletin contains data for a protein obtained from soybeans which has been used as a supplement for chicken feed. The protein has also been used for growing pigs and as a sole source of protein in rat experiments. DRACKETT PRODUCTS Co. **L13**

Stainless Steel Tubing. Bulletin includes data on problems involving stainless piping. Fabrication methods for installing piping systems are discussed. A table of dimensions and weights of various stainless pipe size schedules and condensed technical data on mechanical and physical properties of some stainless steels used in piping are included. BABCOCK & WILCOX Co. **L14**

Water Analysis. Bulletin entitled "Testing Equipment for Water Analyses" is intended for use as a guide in the selection of water testing equipment. A complete line of test sets for hardness, alkalinity, chloride, sulfite, and colorimetric testing is described. W. H. & L. D. BETZ Co. **L15**
