

TECHNICAL SECTION

SEPTEMBER 1955 Volume 3, Number 9

JOURNAL OF
**Agricultural
and Food
Chemistry**

PESTICIDES

- Pesticides Toxicology, Toxicology of Chlorobenzilate
H. J. Horn, R. B. Bruce, and O. E. Paynter 752
- Pesticide Determination, Chemical Determination of Dieldrin in Crop Materials
A. E. O'Donnell, H. W. Johnson, Jr., and F. T. Weiss 757
- Rodenticides, Comparative Toxicities of Warfarin and Some 2-Acyl-1,3-indandiones in Rats
J. P. Saunders, S. R. Heisey, A. D. Goldstone, and E. C. Bay 762

PLANT NUTRIENTS AND REGULATORS

- Comparison of Phosphate Fertilizers, Fertilizer Value of Calcined and Fused Phosphates on Typical Soils
R. W. Starostka, W. H. Armiger, and W. L. Hill 765
- Fluorides in Soil
Behavior of Incorporations of Potassium and Calcium Fluorides in 6-Year Lysimeter Study
W. H. MacIntire, W. M. Shaw, and Brooks Robinson 772
- Fate and Effects of Hydrofluoric Acid Added to Four Tennessee Soils in 4-Year Lysimeter Study
W. H. MacIntire, A. J. Sterges, and W. M. Shaw 777

FOOD PROCESSING

- Sweet Potato Dehydration, Effects of Processing Conditions and Variety on Properties of Dehydrated Products
J. C. Arthur, Jr., and T. A. McLemore 782

FOOD PROCESSING—NUTRITION

- Feedstuffs Analysis, Detection of *N,N'*-Diphenyl-*p*-phenylenediamine (DPPD) in Dehydrated Alfalfa and in Mixed Feeds
Harry Smith, R. E. Beauchene, D. B. Parrish, and H. L. Mitchell 788

NUTRITION

- Protein Quality and Supplementation
Relative Nutritive Values of Proteins in Foods and Supplementary Value of Amino Acids in Pearled Barley and Peanut Flour
Barnett Sure 789
- Nutritive Value of Proteins in Buckwheat and Their Role as Supplements to Proteins in Cereal Grains
Barnett Sure 793

NUTRITION—FERMENTATION

- Feed from Sewage, Sewage Sludge as Feed Ingredient for Swine and Poultry
J. A. Firth and B. C. Johnson 795

Out-of-Date KJELDAHL equipment

IS COSTLY— INCONVENIENT —UNSAFE!

Check This List of new and improved LABCONCO KJELDAHL equipment. Then drop us a line. Let us explain how one or more of them can cut costs, and increase convenience and safety, in your laboratory.

"King-Sized" Kjeldahl
—Standard Labconco Kjeldahl available with up to 48 heaters. Larger units mean larger "batches" and a big saving at every step in determination.

Kjeldahl with Variable Heat Controls—Gives you accurate, individual control, exact heat you want every time . . . plus quick means of checking line voltage.

Kjeldahl with Labconco Hood—Heat from Kjeldahl collects in hood, is carried off quickly by efficient blower. It's the easy way to whip your heat problem.

Labconco Acid and Cautic Dispensing Unit—Solutions stored in floor-level cabinet. Fill burettes with push-button controls. Eliminates danger of dispensing from overhead shelves, also corrosion resulting from spillage.

Labconco Titration Unit
—Elevates solutions by controlled air pressure. Also gives you roomy storage cabinet for bottles, plus well-lighted background for speed and ease in titrating.

Labconco Kjeldahl Sink
—Specifically designed for dumping and washing operations. Equipped with 6-foot hose with grip valve for adding cooling water to flasks, also a flask washer that will save you time, cut down on breakage.
